Effects of preweaning environmental enrichment on basilar dendrites of pyramidal neurons in occipital cortex of the rat: A Golgi study
Developmental Brain Research 49: 140-144

Volkmar FR., Greenough WT. (1973)
Rearing complexity affects branching of dendrites in the visual cortex of the rat
Science 176: 1445-1447

Voss T. (1994)
Vergleich zwischen den Auswirkungen strukturierter, bzw. standardisierter Haltungssysteme auf Aggressivität, psychosoziale Befindlichkeit und endokrine Merkmale männlicher Labormäuse
Vet. Med. Diss. Hannover

Wainwright PE., Huang Y-S., Bulman-Fleming B., Levesque S., Mc Cutcheon D. (1994)
The effects of dietary fatty acid composition combined with environmental enrichment on brain and behavior in mice
Behavioural Brain Research 60: 125-136

Wallace ME. (1982)
Some thoughts on the laboratory cage design process
International Journal for the Study of Animal Problems 3: 234-242

Walsh RN., Budtz-Olsen OE., Penny JE., Cummins RA. (1969)
The effect of environmenatl Complexity on the histology of the rat hippocampus
J. Comp. Neurol. 137: 361-366

Ward GE., Fiat R., Demille D. (1991)
Environmental enrichment for Laboratory mice (Mus musculus)
Animal Technology 42 (3): 149-156

Watson DSB. (1993)
Evaluation of inanimate objects on commonly monitored variables in preclinical safety studies for mice and rats
Laboratory Animal Science 43 (4): 378-380

Wechsler B. (1992)
Ethologische Grundlagen zur Entwicklung alternativer Haltungsformen
Schweizer Archiv für Tierheilkunde 134: 127-132

Weihe WH. (1987)
Das Tier im Experiment
Bern, Hüber

Weiss von J., Taylor GT. (1985)
Einfluss der Käfigstruktur auf das Wahlverhalten und die Spontanmotilität von Laborratten
Zeitschrift für Versuchstierkunde 27: 175-184

Weiss von J., Ernst A., Schick KL. (1982)
Wahlverhalten als Beurteilungskriterium für die Haltungsbedingungen von Laborratten
Zeitschrift für Versuchstierkunde 24: 193-201

Wemelsfelder F. (1990)
Boredom and laboratory animal welfare
In: Rollin BE.: The Experimental Animal in Biomedical Research, Vol. I., CRC Press Florida, USA: 234-272

Wemelsfelder F. (1994)
Animal boredom: A model of chronic suffering in captive animals and its consequences for environmental enrichment
Humane Innovations and Alternatives in Animal Experimentation 8: 587-591

West RW., Greenough WT. (1972)
Effect of environmental complexity on cortical synapses of rats
Behav. Biol. 7: 279-2824

Widman DR., Rosellini RA. (1990)
Restricted daily exposure to environmental enrichment increases the diversity of exploration
Physiology & Behavior 47 (1): 57-62

Williams LE. (1996)
Ethological considerations for designing behavioural enrichment
Lab Animal 25 (7): 29, 1996

Wolfe JL., Barnett SA. (1977)
Effects of cold on nest-building by wild and domestic mice, *Mus musculus*
Biological Journal of the Linnean Society 9: 73-85

Woods PJ. (1959)
The effects of free and restricted environmental experience on problem-solving behavior in the rat
Journal of Comparative and Physiological Psychology 52: 399-402

Woods PJ., Ruckelshaus SI:, Bowling DM. (1960)
Some effects of "free" and "restricted" environmental rearing conditions upon adult behavior in the rat
Psychological Reports 6: 191-200

Würbel H., Stauffacher M. (1994)
Standard-Haltung für Labormäuse – Probleme und Lösungsansätze
Tierlaboratorium 17: 109-118

Würbel H., Chapman R., Rutland C. (1998)
Effect of feed and environmental enrichment on development of stereotypic wire-gnawing in laboratory mice
Applied Animal Behaviour Science 60 (1): 69-81

Würbel H., Stauffacher M., Von Holst D. (1996)
Stereotypies in laboratory mice – quantitative and qualitative description of the ontogeny of "wire-gnawing" and "jumping" in ICR and ICR nude – mice
Ethology 102: 371-385

Zimbardo PG., & Montgomery KC. (1957)
Effects of "free environment" rearing upon exploratory behavior
Psychological Reports 3: 589-594
