Heterogeneity and Differential Development in Old Age: A Systemic-Wholistic Approach

Dissertation
zur Erlangung des akademischen Grades
Doktor der Philosophie
(Dr. phil.)

vorgelegt von
Dipl.-Psych.
Denis Gerstorff

Gutachter:

Prof. Dr. Paul B. Baltes, Max-Planck-Institut für Bildungsforschung, Berlin

Prof. Dr. Ralf Schwarzer, Freie Universität, Berlin

Betreuer:

Prof. Dr. Paul B. Baltes, Max-Planck-Institut für Bildungsforschung, Berlin

Prof. Dr. Jacqui Smith, Max-Planck-Institut für Bildungsforschung, Berlin

DISPUTATION: BERLIN, 13. DEZEMBER 2004

TABLE OF CONTENTS

Acknowledgements.....	i
Abstract	ii
Zusammenfassung.....	iv
I THEORETICAL BACKGROUND	1
1. 1 Concepts of Heterogeneity and Differential Development Across the Lifespan.....	1
1. 2 What are the Mechanisms Underlying Heterogeneity and Differential Development Over Time?	5
1. 2. 1 <i>Macro-Contextual Systems of Influence on Development</i>	5
1. 2. 2 <i>The Evolutionary and Ontogenetic Nature of Influences on Development: Developmental Co-Constructivism and the Gain-Loss Dynamic</i>	9
1. 2. 3 <i>Implications of Lifespan Meta-Conceptions for Heterogeneity and Differential Development in Old Age</i>	12
1. 3 How to Capture Differential Development and Its Underlying Mechanisms: The Systemic-Wholistic Approach.....	19
1. 3. 1 <i>General Characteristics of the Systemic-Wholistic Approach</i>	20
1. 3. 2 <i>The Systemic-Wholistic Approach and Differential Development Over Time</i>	22
1. 3. 3 <i>Strategies Used to Implement The Systemic-Wholistic Approach</i>	24
1. 3. 4 <i>Previous Research on Differential Development in Old Age From The Systemic-Wholistic Perspective</i>	27
1. 3. 5 <i>The Utility of the Systemic-Wholistic Approach: A Summary</i>	30
II THE PRESENT STUDY.....	33
2. 1 Previous Systemic-Wholistic Work From the Berlin Aging Study: Smith and Baltes (1997).....	33
2. 1. 1 <i>Subgroup Characteristics</i>	36
2. 1. 2 <i>External Criteria Used to Link the Subgroups to Theory</i>	38
2. 2 Rationale for the Present Study.....	40
2. 3 Methodological Considerations	43
2. 3. 1 <i>A Brief Introduction to Cluster Analysis</i>	43
2. 3. 2 <i>Sample Selection and Differential Attrition Over Time</i>	46
2. 3. 3 <i>Longitudinal Study Design Issues</i>	47
2. 4 Research Questions and Hypotheses of the Present Study.....	48
2. 4. 1 <i>Identification and Description of Heterogeneity and Its Correlates: Subgroup Differences in Psychological Profiles and External Correlates at Baseline</i>	50
2. 4. 2 <i>Differential Development Over Time and Its Underlying Mechanisms: Subgroup Differences in Change of Psychological Profiles Over Six Years and the Role of External Correlates</i>	52
2. 4. 3 <i>Outcomes of Heterogeneity and Differential Development Over Time: Consequences of Subgroup Differences in Psychological Profiles and Change Over Six Years</i>	54

III	METHOD.....	56
3. 1	Sample and Data Protocol	56
3. 2	Measures	60
3. 2. 1	<i>Psychological Measures</i>	60
3. 2. 1. 1	Data Preparation and Reliability.....	61
3. 2. 2	<i>Cross-Disciplinary Measures</i>	64
3. 3	Differential Sample Attrition, Measurement Issues and Their Implications for the Present Study	66
3. 3. 1	<i>Attrition Effects at the Subgroup Level</i>	66
3. 3. 2	<i>Attrition Effects at the Variable Level</i>	68
3. 3. 2. 1	Sample Differences at the Mean Level	68
3. 3. 2. 2	Sample Differences in the Covariance Structure.....	71
3. 3. 3	<i>Implications for the Present Study</i>	75
IV	RESULTS.....	77
4. 1	Identification and Description of Heterogeneity and Its Correlates: Subgroup Differences in Psychological Profiles and External Correlates at Baseline.....	77
4. 1. 1	<i>2-Stage Clustering Procedure at Baseline Assessment of the 6-Year BASE Sample</i>	77
4. 1. 2	<i>Results of Cluster Analysis: Comparison to Previous Systemic-Wholistic Work From the Berlin Aging Study</i>	82
4. 1. 3	<i>Subgroups Extracted From the 6-Year Longitudinal BASE Sample: Profile Characteristics on Psychological Measures at Baseline Assessment</i>	85
4. 1. 4	<i>Subgroups Extracted From the 6-Year Longitudinal BASE Sample: Profile Characteristics on Cross-Disciplinary Measures at Baseline Assessment</i>	88
4. 2	Differential Development Over Time and Its Underlying Mechanisms: Subgroup Differences in Change of Psychological Profiles Over Six Years and the Role of External Correlates	93
4. 2. 1	<i>Stability and Change at the Level of the Subgroups</i>	93
4. 2. 1. 1	Follow-Up Analyses on Subgroup Changers.....	96
4. 2. 2	<i>Stability and Change at the Level of the Subgroup-Defining Measures</i>	98
4. 2. 2. 1	Results of a Series of Repeated Measures ANOVA.....	98
4. 2. 2. 2	Follow-Up Analyses	109
4. 2. 2. 2. 1	Sample Attrition Effects on Longitudinal Change Statistics	109
4. 2. 2. 2. 2	Subgroup Changers.....	110
4. 2. 3	<i>The Role of External Correlates For Subgroup Change Over Time</i>	112
4. 2. 3. 1	Follow-Up Analyses on Subgroup Changers.....	117
4. 3	Outcomes of Heterogeneity and Differential Development Over Time: Consequences of Subgroup Differences in Psychological Profiles and Change Over Six Years.....	119
4. 3. 1	<i>Well-Being</i>	119
4. 3. 1. 1	Follow-Up Analyses on Subgroup Changers.....	122
4. 3. 2	<i>Survival</i>	123
4. 3. 2. 1	Follow-Up Analyses on Subgroup Changers.....	127

V	DISCUSSION	129
5. 1	Summary of Main Findings and Their Relation to Previous Research.....	129
5. 1. 1	<i>Identification and Description of Heterogeneity in Old Age and Its Correlates</i>	<i>132</i>
5. 1. 2	<i>Differential Development Over Time in Old Age and Its Underlying Mechanisms.....</i>	<i>139</i>
5. 1. 2. 1	Stability and Change Over Time in Subgroup Membership.....	139
5. 1. 2. 2	Stability and Change Over Time in Profile-Defining Measures	143
5. 1. 2. 3	The Role of Cross-Disciplinary Factors for Profile Stability and Change.....	150
5. 1. 3	<i>Outcomes of Heterogeneity and Differential Development Over Time</i>	<i>152</i>
5. 1. 3. 1	Well-Being	153
5. 1. 3. 2	Survival	154
5. 2	Limitations of the Present Study.....	157
5. 2. 1	<i>Difficulties in Empirical Examinations of Lifespan Scripts About Development</i>	<i>157</i>
5. 2. 2	<i>Constraints Imposed by Study Design and Resulting Sample Characteristics</i>	<i>159</i>
5. 2. 3	<i>Concerns about Methods, Profile-Defining Measures, and Analysis Strategies Chosen.....</i>	<i>162</i>
5. 3	Unique Insights Gained From Combining the Lifespan Perspective with a Systemic-Wholistic Approach to Study Heterogeneity and Differential Development in Old Age.....	166
5. 4	Outlook.....	171
