

**APPROXIMATE PROPERTIES OF SOLUTIONS AND
SPECTRUM CHARACTER OF SOME CLASSES OF
MIXED TYPE EQUATIONS**

DISSERTATION

des Fachbereichs Mathematik und Informatik
der Freien Universität Berlin
zur Erlangung des Grades eines
Doktors der Naturwissenschaften

Erster Gutacher: Prof. Dr. H.Bekehr

Zweiter Gutacher: Prof. Dr. K.Ospanov

Vorgelegt von

Madi Muratbekov

April 2008

Date of Disputation: 30 May 2008

CONTENTS

Introduction	2
1. Coercitive estimates and estimates of the spectrum of mixed type operators	16
1.1 Estimates of the spectrum for a class of mixed type equations	21
1.2 Estimates of the spectrum of a class of mixed type equations with coefficients of two variables	31
1.3 Properties of the resolvent and estimates of eigenvalues for a mixed type operator	42
2. Solvability and smoothness of the semiperiodical Dirichlet problem for mixed type equations	56
2.1 Separability of a mixed type operator	56
2.2 Two-sides estimates of the distribution function of s-values of a class of mixed type differential operators	68
