Diagnostische und epidemiologische Aspekte bei *Campylobacter*-Darminfektionen.
Inaugural-Dissertation, Fachbereich Veterinärmedizin, Justus-Liebig-Universität Gießen,
1998.

BAGGERMAN, W. I. und T. KÖSTER (1992):

A comparison of enrichment and membrane filtration methods for the isolation of
Campylobacter from fresh and frozen foods.
Food Microbiol. 9:87-94.

BANDICK, N., K. DÜNNEBIER, L. BRÄUTIGAM, A. THOMELE, R. FRIES (2005):

Nachweis von *Campylobacter* aus Brauchwasser einer Geflügelfleisch-Gewinnungslinie
mittels PCR.
Poster, 46. Arbeitstagung des „Arbeitsgebietes Lebensmittelhygiene“,
2005, Garmisch-Partenkirchen, Germany.

BANG, D. D., K. PEDERSEN, M. MADSEN (2001):

Development of a PCR assay suitable for *Campylobacter* spp. mass screening programs in
broiler production.
J. Rapid Methods Aut. Microbiol. 9:97-114.

BARREL, R. A. E. (1984):

The survival of *Campylobacter jejuni* in red meats stored at different temperatures.
Int. J. Food Microbiol. 1:187-196.

BARTELT, E. und P. LUBER (2003):

Vergleich von Transportmedien für den *Campylobacter*-Nachweis aus Tupferproben.
In: 44. Arbeitstagung des „Arbeitsgebietes Lebensmittelhygiene“, DVG
29. September - 02. Oktober 2003, Garmisch-Partenkirchen, Germany.

BARTELT, E., B.-M. WERTH, G. KLEIN, P. LUBER (2003):

Antibiotikaresistenz von *Campylobacter*-Isolaten von Schlachttierkörpern verschiedener
Tierarten, Handelsproben vom Geflügel und aus Stuhlproben.
In: 44. Arbeitstagung des „Arbeitsgebietes Lebensmittelhygiene“, DVG 29. September - 02.
Oktober 2003, Garmisch-Partenkirchen, Germany.

BASERISALEHI, M., N. BAHADOR, B. P. KAPADNIS (2004):

A novel method for isolation of *Campylobacter* spp. from environmental samples, involving sample processing, and blood- and antibiotic-free medium.

J. Appl. Microbiol. 97(4):853-860.

BATTISTA, K., C. NEWCOMER, K. TRUONG (persönliche Mitteilung, 2001):

Mini VIDAS as an Alternative to Standard Methods.

BAUMGART, J., R. BRINKMANN, P. FRANKE (2003):

Die Kultur von Mikroorganismen und Untersuchung der Morphologie;
Labororganisation, Verfahrensmanual und Sicherheit im Labor.

In: Mikrobiologische Untersuchungen von Lebensmitteln (CD-ROM),

Jürgen Baumgart, Barbara Becker (Hrsg.), Behr's Verlag, April 2003, Kapitel I.1.

BAUMGARTNER, A., M. GRAND, M. LINIGER, A. SIMMEN (1995):

Campylobacter contaminations of poultry liver – consequences for food handlers and consumers.

Archiv für Lebensmittelhygiene 46(1):11-12.

BAYLIS, C. L., S. MACPHEE, K. W. MARTIN, T. J. HUMPHREY, R. P. BETTS (2000):

Comparison of three enrichment media for the isolation of *Campylobacter* spp. from foods.

J. Appl. Microbiol. 89:884-891.

BEACH, J. C., E. A. MURANO, G. R. ACUFF (2002):

Prevalence of *Salmonella* and *Campylobacter* in Beef Cattle from Transport to Slaughter.

J. Food Prot. 65(11):1687-1693.

BECKER, H., G. SCHALLER, E. MÄRTLBAUER (1994):

Nachweis von *Staphylococcus-aureus*-Enterotoxinen in Lebensmitteln mit kommerziellen Enzymimmuntests.

Archiv für Lebensmittelhygiene 45:27-32.

BECKER, H., G. SCHALLER, M. FAROUQ, E. MÄRTLBAUER (1998):

Nachweis einiger pathogener Mikroorganismen in Lebensmittel mit kommerziellen Testkits, Teil 1 Nachweis von Salmonellen.

Archiv für Lebensmittelhygiene 49:10-13.

BECKER, H., G. SCHALLER, M. FAROUQ, E. MÄRTLBAUER (1998a):

Nachweis einiger pathogener Mikroorganismen in Lebensmittel mit kommerziellen Testkits, Teil 2 Nachweis von Listerien.

Archiv für Lebensmittelhygiene 49:30-34.

BECKER, H., G. SCHALLER, S. EBERHARDT, M. FAROUQ, E. MÄRTLBAUER (1998b):

Nachweis einiger pathogener Mikroorganismen in Lebensmittel mit kommerziellen Testkits, Teil 3 Nachweis von Listerien.

Archiv für Lebensmittelhygiene 49:97-102.
