Algorithms for Comparing Geometric Patterns

(Algorithmen zum Vergleich geometrischer Muster)

Dissertation zur Erlangung des Doktorgrades

vorgelegt am

Fachbereich Mathematik und Informatik
der Freien Universität Berlin

2001

von

Christian Knauer

Contents

1 Introduction **1**

I Point set pattern matching in d-dimensional space **5**

2 Testing the congruence of point sets in $\mathbb{R}^d$ **9**
2.1 The dimension reduction technique 9
2.2 A refined approach 11

3 Measuring the Hausdorff distance of point sets in $\mathbb{R}^d$ **17**
3.1 The one-sided Hausdorff distance of a point set to a semialgebraic set . . . 17

II Matching of plane curves **21**

4 Matching polygonal curves with respect to the Fréchet distance **27**
4.1 Computing the Fréchet distance 28
4.2 Minimizing the Fréchet distance 31
4.3 Approximately minimizing the Fréchet distance 38

5 Bounding the Fréchet distance by the Hausdorff distance **43**
5.1 The upper bound 44
5.2 Computing the reparametrization 46
5.3 Recognizing κ-straight curves 49

III Computing the Hausdorff distance between polyhedral surfaces in $\mathbb{R}^3$ **59**
6.1 Outline of the method 63
6.2 The $L_{\mathbf{B}_P}$-Hausdorff distance of Δ-patterns 64
6.3 The Hausdorff distance of Δ-patterns 66

Appendices

Bibliography **74**

Index **75**

Glossary **77**

List of Definitions **81**

List of Lemmata **83**

List of Theorems **85**

List of Algorithms **87**

Curriculum Vitae **89**

Zusammenfassung **91**
