

# Appendices

# List of Definitions

## Point set pattern matching in $d$ -dimensional space

Hausdorff distance,  $\delta_H(P, Q)$ , 7

One-sided Hausdorff distance,  $\tilde{\delta}_H(P, Q)$ , 7

## Computing the Hausdorff distance between $d$ -dimensional point sets

$\delta$ -neighborhood,  $\text{nh}_\delta(Q)$ , 19

## Matching of plane curves

Curve,  $\mathcal{K}^0$ , 23

Polygonal curve, 23

Closed curve,  $\mathcal{K}^1$ , 23

Closed polygonal curve, 23

Fréchet distance,  $\delta_F(P, Q)$ , 23

Weak Fréchet distance,  $\tilde{\delta}_F(P, Q)$ , 23

## Matching polygonal curves with respect to the Fréchet distance

Free space,  $F_\delta(P, Q)$ , 28

$\delta_F$ -path, 28

$\tilde{\delta}_F$ -path, 28

Clamped  $\delta_F$ -path, 29

Clamped  $\tilde{\delta}_F$ -path, 29

Clamped path, 29

Configuration, 33

h-configuration, 33

v-configuration, 33

$\delta$ -critical translation,  $\mathcal{T}_{crit}^\delta(c)$ , 33

$\delta$ -supercritical translation,  $\mathcal{T}'_{crit}{}^\delta(c)$ , 36

## Approximately minimizing the Fréchet distance

Reference point,  $\mathcal{R}(\mathcal{K}, \delta, c, \mathcal{T})$ , 38

## Bounding the Fréchet distance by the Hausdorff distance

$\kappa$ -Straightness, 43

**Recognizing  $\kappa$ -straight curves**

Detour of a polygonal curve,  $\delta_P(x, y)$ ,  $\delta_P(X, Y)$ ,  $\delta(P)$ , 49

**Computing the Hausdorff distance between polyhedral surfaces in  $\mathbb{R}^3$** 

$L_{\mathbf{B}}$ -distance,  $d_{L_{\mathbf{B}}}(x, y)$ , 61

$L_{\mathbf{B}}$ -norm,  $\|z\|_{L_{\mathbf{B}}}$ , 61

$L_{\mathbf{B}}$ -Hausdorff distance,  $\delta_H^{\mathbf{B}}(P, Q)$ , 61

one-sided  $L_{\mathbf{B}}$ -Hausdorff distance,  $\tilde{\delta}_H^{\mathbf{B}}(P, Q)$ , 61

**Computing the Hausdorff distance between polyhedral surfaces in  $\mathbb{R}^3$** 

$L_{\mathbf{B}}$ - $\delta$ -neighborhood,  $\text{nh}_{\delta}^{\mathbf{B}}(Q)$ ,  $\text{bd}_{\delta}^{\mathbf{B}}(Q)$ , 63

# List of Lemmata

## Testing the congruence of point sets in $\mathbb{R}^d$

Invariant of algorithm *Congruence\_Test*, 13

## Computing the Hausdorff distance between $d$ -dimensional point sets

Computing  $\tilde{\delta}_H(P, Q)$  by brute-force, 18

Computing  $\tilde{\delta}_H(P, Q)$  – decision problem, 19

## Matching polygonal curves with respect to the Fréchet distance

Continuity lemma I, 32

Continuity lemma II, 32

Characteristic feasible translations - weak version, 33

Characteristic feasible translations for  $\delta_F$  - strong version, 34

Characteristic feasible translations for  $\tilde{\delta}_F$  - strong version, 35

Characteristic feasible translations for  $\delta_F$ , 36

Characteristic feasible translations for  $\tilde{\delta}_F$ , 36

## Approximately minimizing the Fréchet distance

### Recognizing $\kappa$ -straight curves

Bichromatic disjoint subcurve detour, 50

Detour of a polygonal curve, 53

Top-Bottom detour of a closed polygonal curve, 54

Detour of a closed polygonal curve, 57

## Computing the Hausdorff distance between polyhedral surfaces in $\mathbb{R}^3$

The connection between  $\tilde{\delta}_H^{\mathbf{B}}$  and  $\mathbf{bd}_\delta^{\mathbf{B}}$ , 64

Checking the inclusion property, 64

Checking the intersection property – polyhedral case, 65

Checking the intersection property – Euclidean case, 67

$\Delta$ -pattern  $\tilde{\delta}_H$ -measure problem – decision version, 68

# List of Theorems

## Testing the congruence of point sets in $\mathbb{R}^d$

Correctness and complexity of algorithm *Congruence\_Test*, 13

## Computing the Hausdorff distance between $d$ -dimensional point sets

Computing  $\tilde{\delta}_H(P, Q)$ , 20

## Matching polygonal curves with respect to the Fréchet distance

Correctness and complexity of *Fréchet\_Match*, 37

Correctness and complexity of *Weak\_Fréchet\_Match*, 38

## Approximately minimizing the Fréchet distance

Correctness and complexity of *Approx\_Fréchet\_Match*, 40

Non-existence of  $\delta_H$ -reference points for affine maps, 41

## Bounding the Fréchet distance by the Hausdorff distance

$\delta_H$  vs.  $\delta_F$  for  $\kappa$ -straight polygonal curves, 44

Computation of the upper envelope of  $\Phi_\delta(P, Q)$ , 46

## Recognizing $\kappa$ -straight curves

Recognition of  $\kappa$ -straight curves, 49

## Computing the Hausdorff distance between polyhedral surfaces in $\mathbb{R}^3$

$\Delta$ -pattern  $\delta_H^{\mathbb{B}^P}$ -measure problem – decision version, 66

Triangle intersection queries for  $\text{bd}_\delta^{\mathbb{B}^2}$ , 67

$\Delta$ -pattern  $\delta_H$ -measure problem – decision version, 68

$\Delta$ -pattern  $\delta_H$ -measure problem – optimization version, 68

# List of Algorithms

**Testing the congruence of point sets in  $\mathbb{R}^d$**

Algorithm *Congruence\_Test*, 12

**Matching polygonal curves with respect to the Fréchet distance**

Algorithm *Fréchet\_Match*, 37

Algorithm *Weak-Fréchet\_Match*, 37

**Approximately minimizing the Fréchet distance**

Algorithm *Approx-Fréchet\_Match*, 40

**Recognizing  $\kappa$ -straight curves**
