1	Introduction.....	1
2	Review of Literatures.....	2
2.1.	General Review.....	2
2.2.	General overview of fluoroscopic imaging.....	2
2.2.1.	Historical Development.....	2
2.2.2.	Fluoroscopic imaging chain.....	3
2.2.3.	Uses and clinical applications of C-arm fluoroscopy.....	5
2.2.4.	Radiation exposure.....	7
2.3.	Indications and methods for equine joint surgical treatment.....	10
2.3.1.	Isolated radiopaque opacities (isolated shadow).....	10
2.3.1.1.	Terminology.....	10
2.3.1.2.	Specific Sites in different joints and their treatment.....	13
2.3.1.2.1.	Distal interphalangeal (coffin) joint.....	13
2.3.1.2.2.	Proximal interphalangeal joint (PIPJ).....	16
2.3.1.2.3.	Metacarpophalangeal and Metatarsophalangeal (Fetlock) Joint.....	18
2.3.2.	Intra-articular Fractures.....	28
2.3.2.1.	Noncomminuted fractures of the proximal phalanx.....	28
2.3.2.1.1.	Sagittal fractures of the proximal phalanx.....	28
2.3.2.1.2.	Distal Articular Fractures of P1.....	29
2.3.2.1.3.	Dorsal Frontal fractures of P1.....	29
2.3.2.2.	Metacarpal or Metatarsal Condylar Fracture.....	30
2.3.3.	Subchondral Bone Cysts (Osseous Cyst-like Lesions).....	31
2.3.3.1.	Defination and Historical Prespective.....	31
2.3.3.2.	Terminology.....	32
2.3.3.3.	Sites of Occurrence within the Phalangeal Joints.....	33
2.3.3.4.	Treatment.....	34
3.	Materials and methods.....	36
3.1.	Surgical interference.....	39
3.1.1.	Preoperative preparation.....	39
3.1.2.	Operative technique.....	40
3.1.2.1	Fluoroscopic guided extirpation of isolated shadows within the joints.....	40
3.1.2.1.1	Distal interphalangeal joint.....	40

Contents

3.1.2.1.2	Proximal interphalangeal joint.....	41
3.1.2.1.3.	Metacarpo/metatarsophalangeal joint.....	42
3.1.2.2	Fluoroscopic guided lag screw fixation for treatment of intra-articular fractures..	44
3.1.2.3	Fluoroscopic guided surgical management of subchondral cystic lesions.....	45
3.1.3.	Postoperative care.....	47
3.1.3.1.	In case of isolated shadows extirpation.....	47
3.1.3.2.	In case of management of intra-articular fractures.....	47
3.1.3. 3.	In case of management of subchondral bone cysts.....	47
4.	Results.....	69
4.1.	General results.....	69
4.2.	Surgical removal of isolated shadows from the region of the CDET insertion at the extensor process of the third phalanx (28 horses).....	70
4.3.	Fluoroscopy guided internal fixation of fractured extensor process of third phalanx.....	79
4.4.	Fluoroscopic guided extirpation of isolated shadows from the dorsal aspect of the proximal interphalangeal joint.....	80
4.5.	Fluoroscopic guided extirpation of isolated shadows from the dorsal aspect of the fetlock joint.....	82
4.6.	Fluoroscopic guided extirpation of isolated shadows from the palmar/plantar aspect of the fetlock joint.....	89
4.7.	Fluoroscopy guided internal fixation of proximal sesamoid bone transverse basilar fracture.....	95
4.8.	Fluoroscopy guided lag- screw internal fixation of condylar fractures of MC-3 or MT-3.....	96
4.9.	Fluoroscopic guided lag- screw internal fixation of noncomminuted articular fractures of the proximal phalanx.....	98
4.10.	Fluoroscopic guided surgical management of subchondral cystic lesions (SCLs) within the phalangeal joints.....	101
5.	Discussion.....	104
5.1.	Fluoroscopic imaging.....	105
5.2.	Radiation exposure.....	105
5.3.	Fluoroscopic guided extirpation of isolated shadows from the region of the extensor process of the third phalanx.....	107

Contents

5.4.	Fluoroscopy guided internal fixation of fractured extensor process of third phalanx.....	111
5.5.	Fluoroscopic guided extirpation of isolated shadows from the dorsal aspect of the proximal interphalangeal joint.....	112
5.6.	Fluoroscopic guided extirpation of isolated shadows from the the fetlock joint....	113
5.7.	Fluoroscopic guided surgical management of noncomminuted articular fractures of the proximal phalanx.....	118
5.8.	Fluoroscopic guided surgical management of condylar fractures of MC-3 or MT-3.....	120
5.9.	Fluoroscopic guided surgical management of transverse, articular proximal sesamoid fracture.....	122
5.10.	Fluoroscopic guided surgical management of subchondral cystic lesions (SCLs) within the phalangeal joints.....	123
6.	Conclusions.....	126
7.	Summary.....	127
8.	Zusammenfassung	128
9.	References.....	129
