

8 Literaturverzeichnis

AGUS, Z.S., WASSERSTEIN, S., GOLDFARB, S. (1981):

PTH, calcitonin, cyclic nucleotides and the kidney.

Annu. Rev. Physiol. 43: 583-595.

ALLGOEWER, I. (1994):

Panostitis; Craniomandibuläre Osteopathie.

Praktischer Tierarzt 7, 625-627.

ANDERSON, H.C. (1995):

Molecular biology of matrix vesicles.

Clin. Orthop. 314, 266-280.

ANDERSON, M.P., CAPEN, C.C. (1978):

Parathyroids.

In: Bernischke, K., Garner, F.M., Jones, T.C. (eds.): Pathology of laboratory animals. Vol.1.

New York: Springer, 451-499.

ANDREWS, A.H. (1985):

Osteodystrophia fibrosa in goats.

Vet. Annu. 25, 226-230.

ANDREWS, A.H., INGRAM, P.L., LONGSTAFFE, J.A. (1983):

Osteodystrophia fibrosa in young goats.

Vet. Rec. 112, 404-406.

ARDRAN, G.M. (1951):

Bone destruction not demonstrable by radiography.

Br. J. Radiol. 24, 107-109.

ARGAWALA, N., GAY, C.V. (1992):

Specific binding of parathyroid hormone to living osteoclasts.

J. Bone Miner. Res. 7, 531-539.

ARNOLD, S.A., KRAM, M.A., HINTZ, H.F., EVANS, H., KROOK, L. (1974):

Nutritional secondary hyperparathyroidism in the parrakeet.

Cornell Vet. 64, 37-46.

ASH, P., LOUITT, K.M., TOWNSEND, M.S. (1980):

Osteoclasts derived from haematopoietic stem cells.

Nature 283, 669-670.

BARON, R., VIGNERY, A. (1981):

Behavior of osteoclasts during a rapid change in their number induced by high doses of parathyroid hormone or calcitonin in intact rats.

Metab. Bone Dis. Rel. Res. 2, 339-346.

BARTELS, R., THOMAS, L. (2000):

Chronisch myeloproliferative Erkrankungen.

In: Thomas, L. (ed.): Labor und Diagnose.

Frankfurt: TH-Books, 542-560.

BAXTER, L.A., DELUCA, H.F. (1976):

Stimulation of 25-hydroxyvitamin D₃-1 α -hydroxylase by phosphate depletion.

J. Biol. Chem. 251, 3158-3161.

BELSLEY, R.E., DELUCA, H.F., POTTS, J.T. JR. (1974):

Selective binding properties of vitamin D transport protein in chick plasma in vitro.

Nature 247, 208-209.

BENDELE, A.M., WHITE, S.L., HULMAN, J.F. (1989):

Osteoarthritis in guinea pigs: histopathologic and scanning electron microscopic features.

Lab. Anim. Sci. 39, 115-121.

BENNETT, D. (1976):

Nutrition and bone disease in the dog and cat.

Vet. Rec. 98, 313-321.

BIBER, J., CADERAS, G., WERNER, A., MOORE, M., MURER, H. (1993):

Cellular and molecular aspects of renal phosphate transport.

Ren. Physiol. Biochem. 16, 37-47.

BILEZIKIAN, J.P., BRANDI, M.L., RUBIN, M., SILVERBERG, S.J. (2005):

Primary hyperparathyroidism: new concepts in clinical, densitometric and biochemical features.

J. Inter. Med. 257, 6-17.
