

## Fachartikel

M. Haumann, P. Pospisil, M. Grabolle, C. Müller, P. Liebisch, V. A. Sole, T. Neisius, J. Dittmer, L. Iuzzolino und H. Dau. First steps towards time-resolved BioXAS at room temperature: State transitions of the manganese complex of oxygenic photosynthesis. *J. Synchrotron Rad.*, 9(5): 304-308, 2002.

C. Müller, H. Dau und M. Haumann. Chelex-treatment to obtain highly active PSII membrane particles with minimal  $\text{Ca}^{2+}$  content for X-ray absorption spectroscopy at the Ca K-edge. *13th International Congress of Photosynthesis*, Montreal, 6: 257-259, 2004.

C. Müller, P. Liebisch, M. Barra, H. Dau und M. Haumann. The location of calcium in the manganese complex of oxygenic photosynthesis studied by X-ray absorption spectroscopy at the Ca K-edge. *Phys. Scripta*, T115, 847-850, 2005.

M. Haumann, C. Müller, P. Liebisch, T. Neisius und H. Dau. A novel BioXAS technique with sub-millisecond time resolution to track oxidation state and structural changes at biological metal centers. *J. Synchrotron Rad.*, 12(1): 35-44, 2005.

M. Haumann, C. Müller, P. Liebisch, L. Iuzzolino, D. Dittmer, M. Grabolle, T. Neisius, W. Meyer-Klaucke und H. Dau. Structural and oxidation state changes of the photosystem II manganese complex in four transitions of the water oxidation cycle ( $S_0 \rightarrow S_1$ ,  $S_1 \rightarrow S_2$ ,  $S_2 \rightarrow S_3$ , and  $S_{3,4} \rightarrow S_0$ ) characterized by X-ray absorption spectroscopy at 20 K and room temperature. *Biochemistry*, 44(6): 1894-1908, 2005.

M. Haumann, P. Liebisch, C. Müller, M. Barra, M. Grabolle und H. Dau. Photosynthetic  $\text{O}_2$  formation tracked by time-resolved X-ray experiments. *Science*, 310(5750): 1019-1021, 2005.

M. Grabolle, M. Haumann, C. Müller, P. Liebisch und H. Dau. Rapid loss of structural motifs in the manganese complex of oxygenic photosynthesis by X-ray irradiation at 10 - 300 K. *J. Biol. Chem.*, 281(8): 4580-4588, 2006.

## Konferenzbeiträge

C. Müller, M. Haumann, P. Liebisch, M. Grabolle, L. Iuzzolino, J. Dittmer, T. Neisius, W. Meyer-Klaucke und H. Dau. Structural changes of the tetra-manganese complex of photosystem II during its catalytic cycle. *European Conference on Bioinorganic Chemistry (EUROBIC)*, 30. Juli - 6. August 2002, Lund, Schweden (Poster)

C. Müller, M. Haumann, P. Liebisch, M. Grabolle und H. Dau. Structural changes of the water-oxidizing tetra-manganese complex of photosynthesis in the course of its catalytic cycle. *Jahrestagung der Deutschen Gesellschaft für Biophysik*, 8. - 11. September 2002, Dresden, (Poster)

C. Müller, M. Haumann, P. Liebisch und H. Dau. Time-resolved X-ray absorption spectroscopy on the manganese complex of photosystem II. *Joint meeting of Belgian and German Biophysicists*, 29. Mai - 1. Juni 2003, Hünfeld, (Poster)

C. Müller, M. Haumann, P. Liebisch und H. Dau. Time-resolved X-ray absorption spectroscopy on the manganese complex of photosystem II. *EMBO Practical course on BioXAS*, 17. - 22. Juni 2003, Hamburg, (Vortrag)

C. Müller, P. Liebisch, M. Barra, H. Dau und M. Haumann. The location of calcium in the manganese complex of oxygenic photosynthesis studied by X-ray absorption spectroscopy at the Ca K-edge. *XAFS12*, 22.-27. Juni 2003, Malmö, Schweden, (Poster)

C. Müller, P. Liebisch, M. Barra, H. Dau und M. Haumann. Lokalisierung von Calcium im Mangankomplex des Photosystems II mittels Röntgen-Absorptions-Spektroskopie (XAS). *12. Photosynthese Workshop Nord-West*, 10. Oktober 2003, Bochum, (Vortrag)

## Beiträge zu Jahresberichten

M. Haumann, H. Dau, M. Barra, P. Liebisch und C. Müller. BioXAS with sub-millisecond time resolution on structural and oxidation state changes at protein-bound metal centers - The manganese complex of photosynthesis. ESRF - Annual Report, 2004.

P. Liebisch, A. Schöler, C. Müller, M. Haumann und H. Dau. Comparative study of biogenic and synthetic manganese oxides by X-ray absorption spectroscopy. BESSY - Annual Report, 2004.

P. Liebisch, H. Hartmann, D. Hönig, C. Müller, W. Meyer-Klaucke, K.-H. Decker und H. Dau. Hemocyanin - pH- influence on the structure of the O<sub>2</sub>-binding di-copper site of Hemocyanin. HASYLAB/EMBL - Annual Report, 2004.

P. Liebisch, C. Müller, C. Plieth, A. Erko und H. Dau. Microfocus XAS measurements on volcano-shaped manganese deposits at the cell wall of the green alga *Chara carollina*. BESSY - Annual Report, 2003.

P. Liebisch, M. Barra, M. Grabolle, C. Müller, A. Erko und H. Dau. On the evolutionary origin of the manganese complex of oxygenic photosynthesis: Possible formation of a bicarbonate precursor complex. BESSY - Annual Report, 2003.

H. Dau, M. Haumann, M. Barra, P. Liebisch und C. Müller. The manganese complex of photosynthetic water oxidation in all S-states at 10 K - Polarization dependent XAS. ESRF - Annual Report, 2003.

H. Dau, M. Haumann, M. Barra, P. Liebisch und C. Müller. Structural changes of the tetra-manganese complex of oxygenic photosynthesis during the oxygen-evolving transition induced by Laser-flashes and studied by time-resolved BioXAS. ESRF - Annual Report, 2003.

H. Dau, M. Haumann, M. Barra, P. Liebisch und C. Müller. The calcium binding site at the manganese complex of oxygenic photosynthesis: Investigations by calcium XAS on native and biochemical treated photosystem II. ESRF - Annual Report, 2003.

H. Dau, M. Haumann, M. Grabolle, P. Liebisch und C. Müller. X-ray absorption spectroscopy on biological samples (BioXAS): The manganese complex of photosystem II. BESSY - Annual Report, 2002.

M. Haumann, A. Porthun, P. Liebisch, C. Müller, T. Burgdorf, W. Meyer-Klaucke, B. Friedrich und H. Dau. Hydrogen-sensing Ni-Fe site of regulatory hydrogenase. HASYLAB/EMBL - Annual Report, 2002.

H. Dau, M. Haumann, M. Grabolle, P. Liebisch und C. Müller. Structural changes of the photosynthetic tetra-manganese complex induced by Laser-flashes and monitored by time-resolved BioXAS at room temperature. ESRF - Annual Report, 2002.

H. Dau, D. Rheder, M. Haumann, C. Schulzke, M. Grabolle, P. Liebisch und C. Müller. Bromide-binding to the active-site of vanadate-dependent peroxidase. ESRF - Annual Report, 2002.

H. Dau, M. Haumann, M. Grabolle, P. Liebisch und C. Müller. The manganese complex of photosynthetic water oxidation studied by calcium EXAFS. ESRF - Annual Report, 2002.
