

## **11. Acknowledgements**

This work was carried out at Klinik und Poliklinik für klein Haustiere, Free University of Berlin. I would like to acknowledge the people who supported me to complete this thesis.

My special thanks go to my Doktorvater, Prof. Leo Brunnberg for giving me the opportunity for this work, for accepting me in the surgery team and for initiating my inspiration to pursue a good surgeon.

I am very grateful to my all colleagues at the Klinik und Poliklinik für klein Haustiere, FU, Berlin who are very kind, friendly, supportive and helpful. With them I never felt alone during my stay in Germany. I would like to thank them with my heart for making Berlin as my second home.

I am also thankful to Mr. Adisorn Yawongsa who dedicated his time to supervise me in statistic.

Finally, I would like to thank Kasetsart University, Thailand for providing me with a scholarship to complete my studies.
