

8 Literaturverzeichnis

ABBASI, I.; BRANZBURG, A.; CAMPOS-PONCE, M.; ABDEL HAFEZ, S.K.; RAOUL, F.; CRAIG, P.H.S. and HAMBURGER, J. (2003):

Copro-diagnosis of *Echinococcus granulosus* infection in dogs by amplification of a newly identified repeated DNA sequence.

Am. J. Trop. Med. Hyg. 69, 324-330

ALLAN, J.C.; CRAIG, P.S.; GARCIA NOVAL, J.; MENCOS, F.; LIU, D.; WANG, Y.; WEN, H.; ZHOU, P.; STRINGER, R.; ROGAN, M. and ZEYHLE, E. (1992):

Coproantigen detection for immunodiagnosis of echinococcosis and humans.

Parasitology 104, 347-355

ALLARD, A.; GIRONES, R.; JUTO, R. and WADELL, G. (1990):

Polymerase chain reaction for detection of adenoviruses in stool samples.

J. Clin. Microbiol. 28, 2659-2667

ALTHER, P. (1996):

Beitrag zur Epidemiologie und Diagnose der *Echinococcus multilocularis*-Infektion bei Endwirten.

Vet. Med. Diss., Universität Zürich.

ALTINTAS, N. (2003):

Past to present: echinococcosis in Turkey.

Acta Trop. 85, 105-112

AMMAN, R. and ECKERT, J. (1995):

Clinical diagnosis and treatment of echinococcosis in humans.

In: THOMPSON, R.C.A. and LYMBERRY, A.J. (eds): *Echinococcus and hydatid disease*.

CAB International, Wallingford, pp. 411-463

AUER, H.; PICHER, O. and ASPÖCK, H. (1986):

Erfahrungen bei der Serodiagnostik der Echinokokkosen mittels ELISA.

Mitt. Österr. Ges. Tropenmed. Parasit. 8, 17-22

BABOS, S. and NEMETH, I. (1962):

Zur Frage bei der Serodiagnostik der Echinococcosis. (in ungarisch).

Magyar Allatorvosok Lapja 17, 58-60

BAI, Y.; CHENG, N.; JIANG, C.; WANG, Q. and DARUENG, C. (2002):

Survey on cystic echinococcosis in Tibetans, West China.

Acta Trop. 82, 381-385

BARDONNET, K.; BENCHIKH-ELFEGOUN, M.C.; BART, J.M.; HARRAGA, S.; HANNACHE, N.; HADDAD, S.; DUMON, H.; VUITTON, D.A. and PIARROUX, R. (2003):

Cystic echinococcosis in Algeria: cattle act as reservoirs of a sheep strain and may contribute to human contamination.

Vet. Parasitol. 116, 35-44

BARONET, D.; WALTNER-TOEWS, D.; CRAIG, P.S. and JOSHI, D.D. (1994):

Echinococcus granulosus infections in the dogs of Kathmandu, Nepal.

Ann. Trop. Med. Parasitol. 88, 485-492

BIAVA, M.F.; DAO, A. and FORTIER, B. (2001):

Laboratory diagnosis of cystic hydatid disease.

World. J. Surg. 25, 10-14

BOCH, J. and SUPPERER, R. (1983):

Veterinärmedizinische Parasitologie. 3. Auflage, Verlag Paul Parey, Berlin, pp. 39-53

BRETAGNE, S.; GUILLOU, J.P.; MORAND, M. and HOUIN, R. (1993):

Detection of *Echinococcus multilocularis* DNA in fox faeces using DNA amplification.

Parasitology 106, 193-199

BREYER, I.; GEORGIEVA, D.; KURDOVA, R. and GOTTSTEIN, B. (2004):

Echinococcus granulosus strain typing in Bulgaria: the G1 genotype is predominant in intermediate and definitive wild hosts.

Parasitol. Res. 93, 127-130

BUDKE, C.M.; CAMPOS-PONCE, M.; WANG, Q. and TORGERSON, P.R. (2005):

A canine purgation study and risk factor analysis for echinococcosis in a high endemic region of the Tibetan plateau.

Vet. Parasitol. 127, 49-55

BÜHLER, A. (1972):

Untersuchungen über den Echinokokkenbefall bei Schlachttieren in der Schweiz und die Übertragbarkeit larvaler Echinokokken auf Labortiere.

Vet. Med. Diss., Universität Zürich

CABRERA, M.; CANOVA, S.; ROSENVZVIT, M. and GUARNERA, E. (2002):

Identification of *Echinococcus granulosus* eggs.

Diagn. Microbiol. Infect. Dis. 44, 29-34

CARMONA, C.; PERDOMA, R.; CARBO, A.; ALVAREZ, C.; MONTI, J.; GRAUERT, R.; STERN, D.; PERERA, G.; LLOYD, S.; BZINI, R.; GEMMELL, M.A. and YARZABAL, L. (1998):

Risk factors associated with human cystic echinococcosis in Florida, Uruguay: results of a mass screening study using ultrasound and serology.
