

11. Acknowledgments

I would take this opportunity to extend my deepest gratitude to my supervisor Dr. W. E. S. Unger (Federal Institute of Material Research and Testing (BAM), Laboratory VIII.23) for providing me the opportunity to work on this project, for his excellent guidance and help throughout the course of this work and for his generosity of time and ideas during the compilation of this thesis.

I would like to thank Prof. Dr. M. Hennecke (President of the BAM) for his supervision and Prof. Dr. H. Baumgärtel (Frei University Berlin, Institute of Chemistry) for being referee of my thesis.

Sincere thanks to Mr. A. Lippitz for his invaluable technical supervision and tireless support during the entire course of this work. I am also grateful to all the members of Laboratory VIII.23 in BAM for a friendly work atmosphere. Thanks are due also to the entire BESSY II staff for their support during experiments.

Many thanks to Prof. Dr. J. F. Friedrich (BAM, Division VI.3) for his valuable discussions. Thanks are also due to Dr. R. D. Schulze (BAM, Laboratory VI.33) and Dr. I. Retzko for their help and guidance during setting up of the plasma equipment.

I kindly acknowledge the financial support of the BAM presidency by the “BAM Doktoranden-Programm”.

I owe special thanks to my wife Piki for her patience, understanding and encouragement all along the course of my work. Finally, I would also like to thank my family, friends and mentors for their moral support during this work.
