
Low Energy Electrons as a Soft Tool for Surface Modification

Inaugural-Dissertation zur Erlangung der Doktorwürde des
Fachbereiches Biologie, Chemie und Pharmazie der Freien
Universität Berlin

vorgelegt von
Richard Balog
aus Trebišov

Berlin, Oktober 2004

1. Gutachter: Prof. Dr. Eugen Illenberger
2. Gutachter: Prof. Dr. Helmut Baumgärtel

Disputation am: 11.10.2004

Acknowledgments

I would like to thank all the people who helped me during the course of my PhD. These include, with no particular order:

Prof. Dr. Eugen Illenberger for accession me into his working group and for his incredible support and guidance through the time I worked with him.

Prof. Dr. Helmut Baumgärtel for being my second referee.

Dr. Martin Penno, Dr. Petra Tegeder and Dr. Fritz Weik for introducing me into the problematic of the experimental technique and Mr. Biller for his much appreciable support regarding all the technical problems.

All my colleagues Sascha Gohlke, Judith Langer, Dr. Hassan Abdoul-Carime, Andrzej Rosa, Michal Stano, Isabel Martin, Tibor Sedlacko and Ilko Bald making me feel like friend.

A special thanks goes to my family for their moral support.
