Akers R. M., Beal W. E., McFadden T. B., Capuco A. V. (1990)

Morphometric analysis of involuting bovine mammary tissue after 21 or 42 days on non-suckling.

J Anim Sci. 11: 3604-3613.

Annen E. L., McGuire M. A., Vicini J. L., Collier R. J. (2003)

Effect of Posilac7 (bST) and dry period management strategy on milk yield.

J. Dairy Sci. 86 (Suppl. 1): 154(Abstr.).

Bachman K. C. (2004)

Dry period length: How short is long enough?

National Mastitis Council Annual Meeting Proceedings 2004.

Bachman K. C. (2002)

Milk production of dairy cows treated with estrogen at the onset of a short dry period.

J. Dairy Sci. 85: 797-803.

Barkema H. W., Schukken Y. H., Lam T. J., Beiboer M. L., Benedictus G., Brand A. (1999)

Management practices associated with the incidence rate of clinical mastitis.

J Dairy Sci. 82: 1643-1654.

Bascom S. S., Young A. J. (1998)

A summary of the reasons why farmers cull cows.

J Dairy Sci. 81: 2299-2305.

Berry E. A., Hillerton J. E. (2002)

The effect of an intramammary teat seal on new intramammary infections.

J Dairy Sci. 85: 2512-2520.

Berry E. A., Johnston W. T., Hillerton J. E. (2003)

Prophylactic effects of two selective dry cow strategies accounting for interdependence of quarter.

J Dairy Sci. 86: 3912-3919.

Binde M., Bakke H. (1984)

Relationships between teat characteristics and udder health. A field survey.  
Nord Vet Med. 36 (3-4): 111-116.

Bitman J., Wood D. L., Bright S. A., Miller R. H. (1988)

Lipid composition of bovine teat canal keratin.  
J Dairy Sci. 71 (5): 1389-1395.

Boyum A., Wilk P., Gustavsson E., Veiby O. P., Reseland J., Haugen A. H.,  
Optad P. K. (1996)

The effect of strenuous exercise and calorie deficiency and sleep deprivation on  
white blood cells, plasma immunoglobulins and cytokines.  
Scand. J. Immunol. 43: 228-235.

Bradley A. J., Green M. J. (2000)

A study of the incidence and significance of intramammary enterobacterial  
infections acquired during dry period.  
J Dairy Sci. 83: 1957-1965.

Bradley A. J., Green M. J. (2002)

The pint plan - Managing Dry Cows to Maximise Milk Quality.  
Proceedings of the British Mastitis Conference 2002 Brockworth: 89-90.

Bramley A. J. (1985)

The sources of mastitis pathogens for dairy herd and their control.  
Kieler Milchwirtschaftliche Forschungsberichte 37: 375-385.

Bright S. A., Bitman J., Capuco A. V., Wood D. L., Miller R. H. (1990)

Methods of collection and lipid composition of teat canal keratin in dry and  
lactating cows.  
J Dairy Sci. 73 (1): 98-106.

Browning J. W., Mein G. A., Barton M., Nicholls T. J., Brightling P. O. (1990)

Effects of antibiotic therapy at drying off on mastitis in the dry period and early  
lactation.  
Aust Vet J 67: 440.

Bundesgesetzblatt (2000)

Verordnung über Hygiene und Qualitätsanforderungen an Milch und Erzeugnisse auf Milchbasis.

Bundesgesetzblatt Teil I Nr. 36 vom 31. Juli 2000.

Canena J., Reis J., Pinto A. S., Santos A. M., Leitao J., Pinheiro T., Quina M. G. (1998)

Distribution of bismuth in the rat after oral dosing with ranitidine bismuth citrate and bismuth subcitrate.
