

Klinik für Unfall- und Wiederherstellungschirurgie  
CHARITÉ – UNIVERSITÄTSMEDIZIN BERLIN  
Campus Benjamin Franklin  
Direktor: Prof. Dr. med. W. Ertel  
Freie- und Humboldt-Universität zu Berlin  
Fachbereich Humanmedizin

# **The role of gene therapy in sepsis – A new therapeutical approach?**

## **Habilitationsschrift**

Zur Erlangung der *venia legendi*  
für das Fach Chirurgie

Vorgelegt von

**Dr. med. Andreas L. Oberholzer**

Berlin 2005

<b>TABLE OF CONTENTS</b>	<b>PAGE</b>
<b>1. INTRODUCTION</b> .....	<b>4</b>
1.1. Definition of sepsis .....	4
1.2. Activation of the innate immune system .....	5
1.3. Role of cytokines during inflammation .....	6
1.4. Role of apoptosis during inflammation.....	8
1.5. Role of dendritic cells during inflammation .....	13
1.6. Gene therapy.....	15
1.7. Adenovirus as a vector for gene therapy.....	18
<b>2. SPECIFIC AIMS OF THE PROJECT</b> .....	<b>20</b>
<b>3. MATERIALS AND METHODS</b> .....	<b>22</b>
3.1. Mice.....	22
3.2. Construction of the recombinant adenovirus .....	22
3.3. Intrathymic, intravenous and footpad gene therapy .....	22
3.4. Cecal ligation and puncture model for polymicrobial sepsis.....	23
3.5. Detection of gfp expression .....	23
3.6. $\beta$ -Galactosidase activity in the thymus.....	24
3.7. Flow cytometric analysis.....	24
3.8. Cytokine measurements .....	25
3.9. Caspase-3 activity assay .....	26
3.10. Histological examination of apoptosis by 3' end labeling (TUNEL).....	26
3.11. Western blot analysis for Bcl-2.....	27
3.12. Blood bacteremia .....	27
3.13. DNA Isolation and PCR for hIL-10 .....	27
3.14. Generation of bone marrow-derived dendritic cells .....	28

3.15. Adenoviral transduction of bone marrow-derived dendritic cells.....	28
3.16. Syngeneic mixed lymphocyte reactions .....	29
3.17. Measurement of endocytosis .....	29
3.18. Readministration of adenovirus-transduced dendritic cells .....	29
3.19. Presentation of data and statistics .....	30
<b>4. RESULTS.....</b>	<b>30</b>
4.1. Adenovirus transfects thymic dendritic cells but not lymphocytes <i>in vivo</i> .....	30
4.1.1. Summary.....	30
4.1.2. Introduction .....	31
4.1.3. Results .....	32
4.1.4. Discussion.....	37
4.2. Targeted adenovirus-induced expression of IL-10 decreases thymic apoptosis and improves survival in murine sepsis .....	39
4.2.1. Summary.....	39
4.2.2. Introduction .....	39
4.2.3. Results .....	40
4.2.4. Discussion.....	49
4.3. Increased survival in sepsis by <i>in vivo</i> adenovirus-induced expression of IL-10 in dendritic cells through footpad injection .....	53
4.3.1. Summary.....	53
4.3.2. Introduction .....	53
4.3.3. Results .....	55
4.3.4. Discussion.....	60
4.4. Reinjection of novel dendritic cell phenotype by adenoviral expression of interleukin-10 improves survival in sepsis .....	64
4.4.1. Summary.....	64
4.4.2. Introduction .....	64
4.4.3. Results .....	66
4.4.4. Discussion.....	76
<b>5. SUMMARY AND CONCLUSION .....</b>	<b>82</b>
<b>6. LITERATURE.....</b>	<b>85</b>
<b>7. ACKNOWLEDGMENTS .....</b>	<b>101</b>
