

CURRICULUM VITAE

Personal information

Name: Dong, Jiaxin
Date of birth: March 7, 1964
Sex: Male
Nationality: Chinese
Present address: Max-Delbruek-Centre for Molecular Medicine
Robert-Roessle-Str. 10,
D13125 Berlin-Buch, Germany
Tel: 0049-30-94063428 or 94063451
FAX: 0049-30-94063884
E-mail: jiadong@mdc-berlin.de
jiaxind@yahoo.com

Education

1997-2001: Ph.D. study in Max-Delbruek-Centre for Molecular Medicine,
Berlin, Germany
Laboratory of Dr. P. Westermann
Major: Biochemistry
Thesis: Impact of dynamin II domains on the function of dynamin II in
vesicle formation at the trans-Golgi-network

1991-1994: Postgraduate study in Academy of Medical Sciences
Beijing, PR China
Major: Molecular Immunology
Thesis: Expression of Human Interleukin 6 receptor in Prokaryotic and
Eucaryotic Cells

1983-1988: Undergraduate student of Beijing Medical College,
Beijing, PR China
Major: Basic Medicine

Research experience

1997-2000 Structure and function of dynamin II
Supported by DFG: We 1482/4-1 and We 1482/5-1
Max-Delbruek-Centre for Molecular Medicine, Berlin, Germany

1996-1997 Screening epitopes of antibodies to EB virus using phage display
technique
Institute of Basic Medical Sciences, Beijing, PR China

1994-1996 Study of signal transduction pathways of IL-6 receptor in leukemia

Cell lines

Institute of Basic Medical Sciences, Beijing, PR China

1992-1994

Structure and function of IL-6 receptor

Institute of Basic Medical Sciences, Beijing, PR China

1988-1991

Anti-virus function of α -interferon in virus diseases

Beijing Medical College, Beijing, PR China
