

IV. Diskussion	68
V. Schlussfolgerung	74
VI. Zusammenfassung	76
VII. Summary	78
VIII. Literaturverzeichnis	80
IX. Anhang	122

VIII. Literaturverzeichnis

AGNEESSENS, J.; ENGELN, S.; DEBEVER, P.; VERCRUYSSSE, J. (1998):

Gasterophilus intestinalis infections in horses in Belgium.

Vet. Parasitol., 77, 199-204

AHMED, Z.G.; HOSSNY, G.A.; EL-SEIFY, M.A.; HASSLINGER, M.-A. (1994):

Tissue reactions to the Dictyocaulus arnfieldi in Egyptian donkeys.

Beni Suef vet. med. Res., 4, 75-85

ANDERSON, R.R. (1984):

The use of ivermectin in horses: Research and clinical observations.

Comp. Cont. Educ. Pract. Vet., 6, 516-520

ANONYM (1990):

Doramectin (UK-67, 994) -Injectable Solution

Pfizer Central Research, Sandwich, Kent, England, Herstellerinformation 27. November 1990

ARBUCKLE, J.B.R.; KHALIL, L.F. (1978):

Thelazia lacrymalis in the eyelids of British horses.

Vet. Rec., 103, 158-159

AREF, S. (1982):

A random walk model for the migration of Strongylus vulgaris in the intestinal arteries of the horse.

Cornell. Vet., 72, 64-75

ARENA, J.P.; LIU, K.K.; PARESS, P.S.; FRAZIER, E.G.; CULLY, D.F.; MROZIK, H.;
SCHAEFFER, J.M. (1995):

The mechanism of action of avermectin in Caenorhabditis elegans: Correlation between activation of glutamate-sensitive chlorid current, membrane binding and biological activity.

J. Parasitol., 81, 286-294

ARUNDEL, J.H. (1978):

Parasitic disease of the horse.

Veterinary Review No. 18, University of Sydney Post Graduate Foundation in Veterinary Science, Sydney, New South Wales, 83

AUSTIN, S.M.; DI PIETRO, J.A.; FOREMAN, J.H.; BAKER, G.J.; TODD, K.S. (1991):

Comparison of the efficacy of ivermectin, oxibendazole and pyrantel pamoate against 28-day Parascaris equorum larvae in the intestine of pony foals.

J. Amer. vet. med. Ass., 198, 1946-1949

- BAIN, A.M.; ROFE, J.C.; HOTSON, I.K.; MURPHY, S. (1969):
Habronema megastoma larvae associated with pulmonary abscesses in a foal.
Aust. vet. J., 45, 101-102
- BAIN, S.A.; KELLY, J.D. (1977):
Prevalence and pathogenicity of Anoplocephala perfoliata in a horse population in South Auckland.
N. Z. vet. J., 25, 27-28
- BARCLAY, W.P.; PHILLIPS, T.N.; FOERNER, J.J. (1982):
Intussusception associated with Anoplocephala perfoliata infection in five horses.
J. Amer. vet. med. Ass., 180, 752-753
- BARNES, E.H.; DOBSON, R.J.; BARGER, I.A. (1995):
Worm control and anthelmintic resistance: Adventures with a model.
Parasitol. Today, 11, 56-63
- BARRAGRY, T. (1984):
Anthelmintics - A review. Part I.
N. Z. vet. J., 32, 161-164
- BARTH, D.; HEINZE-MUTZ, E.M.; RONCALLI, R.A.; SCHLUTER, D.; GROSS, S.J. (1993):
The degradation of dung produced by cattle treated with an ivermectin slow-release bolus.
Vet. Parasitol., 48, 215-228
- BAUER, C. (1986a):
Ciliates as possible food source for adult Oxyuris equi Schrank 1788.
Z. Parasitenk., 72, 279-280
- BAUER, C. (1986b):
Befall mit Magenparasiten in Norddeutschland.
Dtsch. tierärztl. Wschr., 93, 388-389
- BAUER, C. (1986c):
Filariosen.
In: Handlexikon der tierärztlichen Praxis, I-IV, Medical Book Company, Bjaeverskov / DK,
Lief. 182, 260g-260m
- BAUER, C.; GANDRAS, R.; STOYE, M.; BÜRGER, H.-J. (1983):
Eine Feldstudie zur Anthelminthika-Resistenz von Strongyliden beim Pferd.
Berl. Münch. tierärztl. Wschr., 96, 312-316
- BAUER, C.; STOYE, M. (1984):
Ergebnisse parasitologischer Kotuntersuchungen von Equiden, Hunden, Katzen und Igelrn der Jahre 1974 - 1983.
Dtsch. tierärztl. Wschr., 91, 255-258

- BAUER, C.; MERKT, J.C.; JANKE-GRIMM, G.; BÜRGER, H.-J. (1986):
Prevalence and control of benzimidazole-resistant small strongyles on German thoroughbred studs.
Vet. Parasitol., 21, 189-203
- BAUER, C.; CIRAK, V.Y.; HERMOSILLA, C.; OKORO, H. (1998):
Efficacy of a 2 % moxidectin gel against gastrointestinal parasites of ponies.
Vet. Rec., 143, 558-561
- BELLO, T.R. (1989):
Efficacy of ivermectin against experimental and natural infections of Gasterophilus spp. in ponies.
Amer. J. vet. Res., 50, 2120-2123
- BELLO, T.R.; LANINGHAM, J.E.T. (1992):
Evaluation of daily pyrantel tartrate treatment of horses for prevention of intestinal penetration and development of small strongyle larvae resulting from experimentally induced infections.
J. Equine vet. Sci., 12, 280-286
- BELLO, T.R.; LANINGHAM, J.E.T. (1994):
A controlled trial evaluation of three oral dosages of moxidectin against equine parasites.
J. Equine vet. Sci., 14, 483-488
- BEMRICK, W.J. (1978):
Tolerance of equine strongylid larvae to desiccation and freezing.
Cryobiology, 15, 214-218
- BENNETT, D.G. (1972):
Predisposition to abdominal crisis in the horse.
J. Amer. vet. med. Ass., 161, 1189-1194
- BENNETT, D.G. (1986):
Clinical pharmacology of ivermectin.
J. Amer. vet. med. Ass., 189, 100-104
- BEROZA, G.A.; BARCLAY, W.P.; PHILLIPS, T.N.; DONAWICK, W.J.; FOERNER, J.J. (1983):
Caecal perforation and peritonitis associated with Anoplocephala perfoliata infection in three horses.
J. Amer. Ass. Equine Pract., 32, 435-439
- BEROZA, G.A.; WILLIAMS, R.; MARCUS, L.C.; MILLE, P. (1985):
Prevalence of tapeworm infection and associated large bowel disease in horses.
Proc. 2nd Equ. Colic. Symp., 2, 21-25

- BEROZA, G.A.; MARCUS, L.C.; WILLIAMS, R.; BAUER, S.M. (1987):
Laboratory diagnosis of Anoplocephala perfoliata infection in horses.
Proc. Amer. Ass. Equine Pract., 32, 435-439
- BIRD, J.; HERD, R.P. (1995):
In vitro assessment of two species of nematophagous fungi (Arthrobotrys oligospora and Arthrobotrys flagrans) to control the development of infective cyathostome larvae from naturally infected horses.
Vet. Parasitol., 56, 181-187
- BITTNER, G. (1983):
Ein Beitrag zur Epizootologie der Strongylideninfektion des Pferdes in einem bayerischen Gestütsareal.
Vet. med. Diss., München
- BOCH, J.; SUPPERER, R. (1992):
Veterinärmedizinische Parasitologie.
4. Aufl. Paul Parey Verlag, Berlin und Hamburg
- BOERSEMA, J.H. (1982):
Possibilities and limitations in the detection of anthelmintic resistance.
In: Facts and reflections IV. C.E.C. Workshop „Resistance of parasites to anthelmintics“.
(9.-10.12., Lelystad/ Niederlande)
- BOERSEMA, J.H.; EYSKER, M.; VAN DER AAR, W.M. (1998):
The reappearance of strongyle eggs in the faeces of horses after treatment with moxidectin.
Vet. Quarterly, 20, 15-17
- BRAUER, E.; BRAUER, U. (1997):
Klinischer Fall einer generalisierten Demodikose bei einem Pferd und deren Behandlung mit Doramectin.
Tierärztl. Umschau, 52, 131-133
- BRITT, D.P.; PRESTON, J.M. (1985):
Efficacy of ivermectin against Dictyocaulus arnfieldi in ponies.
Vet. Rec., 116, 343-345
- BROCARD, P.; PFISTER, K. (1993):
Efficacite de l'antiparasitaire oral Mebendazole plus Trichlorfon (Telmin® plus Trichlorfon) contre les gasterophiles chez le cheval.
Schweiz. Arch. Tierheilk., 135, 356-359
- BRUCE, A.H.; VAN DEN HEUVEL, W.J.H.; WISLOCKI, P.G. (1993):
Environmental effects of the usage of avermectins in livestock.
Vet. Parasitol., 48, 109-125

BUCKNELL, D.G.; GASSER, R.B.; BEVERIDGE, I. (1995):

The prevalence and epidemiology of gastrointestinal parasites of horses in Victoria, Australia.

Int. J. Parasitol., 25, 711-724

BUENO, L.; RUCKEBUSCH, Y.; DORCHIES, P. (1979):

Disturbances of digestive motility in horses associated with strongyle infection.

Vet. Parasitol., 5, 253-260

BÜRGER, H.J. (1986):

Auftreten benzimidazolresistenter kleiner Strongyliden beim Pferd.

Prakt. Tierarzt, 67, 643-646

BURKHARDT, E. (1978):

Zur Pathologie der Komplikationen bei der Strongylose.

6. Arbeitstagung der Fachgruppe Pferdekrankheiten der DVG, (28.-30.10., Berlin/BRD), 77-81

BURKHARDT, E. (1983):

Zur Pathologie des Strongylus (Delafondia) vulgaris-Befalls beim Pferd - eine Übersicht.

Berl. Münch. tierärztl. Wschr., 96, 37-43

CAIRNS, G.C.; HOLMDEN, J.H. (1977):

The anthelmintic efficacy of cambendazole in horses.

N. Z. vet. J., 25, 35-37

CARTER, G.T.; NIETSCHKE, J.A.; BORDERS, D.B. (1987):

Structure determination of LL-F28249-alpha, beta, gamma and lambda, potent antiparasitic macrolides from Streptomyces cyaneogriseus spp. noncyanogenus.

J. Chem. Soc. Chem. Commun., 6, 402-404

CHIEJINA, S.N.; MASON, S.A. (1977):

Immature stages of Trichonema spp. as a cause of diarrhoea in adult horses in spring.

Vet. Rec., 100, 360-361

CHIU, S.-H.L.; LU, A.Y.H. (1989):

Metabolism and tissue residues.

In: W.C. Campbell (ed.), *Ivermectin and Abamectin.*

Springer Verlag, New York, 131-143

CHRISTL, H. (1971):

Darmruptur nach Massenbefall mit Anoplocephala perfoliata bei einer Stute.

Berl. Münch. tierärztl. Wschr., 84, 305-307

CLAYTON, H.M. (1986):

Ascarids. Recent advances.

Vet. Clin. North Amer. Equine Pract., 2, 313-328

CLAYTON, H.M.; DUNCAN, J.L. (1978):

Clinical signs associated with Parascaris equorum infection in wormfree foals and yearlings.

Vet. Parasitol., 4, 69-78

CLAYTON, H.M.; DUNCAN, J.L. (1979):

The migration and development of Parascaris equorum in the horse.

Int. J. Parasitol., 9, 285-292

CLAYTON, H.M.; NEAVE, R.M.S. (1979):

Efficacy of mebendazole against D. arnfieldi in the donkey.

Vet. Rec., 104, 571-572

CLAYTON, H.M.; DUNCAN, J.L.; DARGIE, J.D. (1980):

Pathophysiological changes associated with Parascaris equorum infection in the foal.

Equine vet. J., 12, 23-25

COGLEY, T.P. (1989):

Effects of migrating Gasterophilus intestinalis larvae (Diptera: Gasterophilidae) on the mouth of the horse.

Vet. Parasitol., 31, 317-331

COGLEY, T.P.; ANDERSON, J.R.; COGLEY, L.J. (1982):

Migration of Gasterophilus intestinalis larvae (Diptera: Gasterophilidae) in the equine oral cavity.

Int. J. Parasitol., 12, 473-480

COLES, G.C.; BAUER, C; BORGSTEEDE, F.H.M.; GEERTS, S.; KLEI, T.R.; TAYLOR, M.A.; WALLER, P.J. (1992):

World Association for the Advancement of Veterinary Parasitology (W.A.A.V.P.) methods for the detection of anthelmintic resistance in nematodes of veterinary importance.

Vet. Parasitol., 44, 35-44

COLES, G.C.; HILLYER, M.H.; TAYLOR, F.G.R.; PARKER, L.D. (1998):

Activity of moxidectin against bots and lungworm in equids.

Vet. Rec., 143, 169-170

COLGAZIER, M.L.; ENZIE, F.D.; KATES, K.C. (1977):

Critical anthelmintic trials in ponies with four benzimidazoles: mebendazole, cambendazole, fenbendazole and albendazole.

J. Parasitol., 63, 724-727

- CONDER, G.A.; THOMPSON, D.P.; JOHNSON, S.S. (1993):
Demonstration of co-resistance of Haemonchus contortus to ivermectin and moxidectin.
Vet. Rec., 132, 651-652
- CONDER, G.A.; CAMPBELL, W.C. (1995):
Chemotherapy of nematode infections of veterinary importance, with special reference to drug resistance.
Adv. Parasitol., 35, 1-84

Askaridoses of domesticated animals.
In: GAFAAR, S.M.; HOWARD, E.W.; MARSH, R.E. (eds.), Parasites, Pets and Predators, 253-269
- COOK, R.W. (1975):
Cambendazole paste as an anthelmintic in horses.
Vet. Med. / Small Anim. Clin., 70, 1451-1453
- CORBA, J.; PRASLICKA, J.; VARADY, M.; ANDRASKO, H.; HOLAKOVSKY, P. (1995):
Efficacy of Moxidectin 2 % Equine Gel and Eqvalan 1 % paste against naturally acquired internal parasite infections in horses.
Helminthologia, 32, 215-218
- CORLOUER, J.P. (1980):
Strongylus vulgaris, données bibliographiques récentes. Diagnostic de l'infestation larvaire par la méthode d'immunofluorescence indirecte.
Thesis, École Nationale Vétérinaire, Toulouse, France
- COSGROVE, J.S.; SHEERAN, J.J.; SAINTY, T.J. (1986):
Intussusception associated with infection with Anoplocephala perfoliata in a two-year-old thoroughbred.
Irish vet. J., 40, 35-36
- COSTA, A.J.; BARBOSA, O.F.; MORAES, F.R.; ACUNA, A.H.; ROCHA, U.F.; SOARES, V.E.; PAULLILO, A.C.; SANCHES, A. (1998):
Comparative efficacy evaluation of moxidectin gel and ivermectin paste against internal parasites of equines in Brazil.
Vet. Parasitol., 80, 29-36
- CRAIG, T.M.; HATCHFIELD, T.A.; PANKAVICH, J.A.; WANG, G.T. (1992):
Efficacy of moxidectin against an ivermectin-resistant strain of Haemonchus contortus in sheep.
Vet. Parasitol., 41, 329-333

CRAIG, T.M.; SCRUTCHFIELD, W.L.; MARTIN, M.T. (1993):

Comparison of prophylactic pyrantel and suppressive ivermectin anthelmintic programs in young horses.

Equine Pract., 15, 24-29

CRAVEN, J.; BJØRN, H.; HENDRICKSEN, S.A.; NANSEN, P.; LARSEN, M.; LENDAL, S. (1996):

A survey of anthelmintic resistance on Danish horse farms.

Parasitologia, 38, 232

CZOSNEK, T. (1988):

Gasterophilus intestinalis, the cause of death in a mare.

Medycyna Weterynaryjna, 44, 6, 346

DAHME, E.; WEISS, E. (1988):

Grundriß der speziellen pathologischen Anatomie der Haustiere.

4. Aufl., Ferdinand Enke Verlag, Stuttgart

DAURIO, C.P.; LEANING, W.H.D. (1989):

The effect of oral ivermectin on immature ascarids in foals.

J. Equine vet. Sci., 9, 312-315

DEEGEN, E.; FREYTAG, K.; HERTSCH, B. (1976):

Diagnose der Schlunderkrankungen beim Pferd.

Tierärztl. Prax., 4, 207-221

DEMEULENAERE, D.; DORNY, P.; VERCRUYSSSE, J.; CLAEREBOUT, E. (1996):

Comparative studies of ivermectin and moxidectin in the control of naturally acquired cyathostome infections in horses.

Abstr. Joint Meeting of Parasitology (13.-15.5., Bruxelles / Belgium), 40

DEMEULENAERE, D.; VERCRUYSSSE, J.; DORNY, P.; CLAEREBOUT, E. (1997):

Comparative studies of ivermectin and moxidectin in the control of naturally acquired cyathostome infections in horses.

Vet. Rec., 141, 383-386

DERKMANN, K.; HASSLINGER, M.-A. (1977):

Zur Bekämpfung des Pferdespulwurmes, Parascaris equorum (Goeze, 1782), mit Panacur®.

Berl. Münch. tierärztl. Wschr., 90, 95-98

DEWES, H.F.; TOWNSEND, K.G. (1990):

Further observations on Strongyloides westeri dermatitis: Recovery of larvae from soil and bedding, an survival in treated sites.

N. Z. vet. J., 38, 34-37

DI PIETRO, J.A.; TODD, K.S. (1989):

Anthelmintics used in treatments of parasitic infections of horses.

Equine Pract., 11, 5-15

DI PIETRO, J.A.; LOCK, T.F.; TODD, K.S.; DAVIS, J. (1989):

Efficacy of ivermectin in the treatment of induced Parascaris equorum infection in pony foals.

J. Amer. med. Ass., 195, 1712-1714

DI PIETRO, J.A.; KLEI, T.R.; FRENCH, D.D. (1990):

Contemporary topics in equine parasitology.

Comp. Cont. Educ. Pract. Vet., 12, 713-716

DI PIETRO, J.A.; EWERT, K.E.; TODD, K.S. (1993a):

Ivermectin treatment of horses: Effect on the distribution of lawns and roughs in horse pastures.

Vet. Parasitol., 48, 241-246

DI PIETRO, J.A.; PAUL, A.J.; EWERT, K.M.; TODD, K.S., Jr.; LOCK, T.F.; AGUILAR, R. (1993b):

Moxidectin gel: A new equine endectocide.

Proc. 38th Ann. Conf. Amer. Ass. Equine Pract. (30.11-2.12., Orlando / Florida), 311- 316

DI PIETRO, J.A.; HUTCHENS, D.E.; LOCK, T.F.; WALKER, K.; PAUL, A.J.; SHIPLEY, C.; RULLI, D. (1997):

Clinical trial of moxidectin oral gel in horses.

Vet. Parasitol., 72, 167-177

DOHERTY, W.M.; STEWART, N.P.; COBB, R.M.; KEIRAN, P.J. (1994):

In-vitro comparison of the larvicidal activity of moxidectin and abamectin against Onthophagus gazella Fabricius (Coleoptera: Scarabaeidae) and Haemotobia irritans exigua De Meijere (Diptera: Muscidae).

J. Aust. ent. Soc., 33, 71-74

DORCHIES, P; DUCOS DE LAHITTE, J.; FLOCHLAY, A.; BLOND-RIOU, F. (1998):

Efficacy of moxidectin 2 % equine gel against natural nematode infections in ponies.

Vet. Parasitol., 74, 85-89

DRÖSSIGK, U.; SCHUSTER, R. (1997):

Bandwurmbefall bei Pferden - Probleme und Erfahrungen.

Prakt. Tierarzt, 78:7, 564-567

DRUDGE, J.H.; ELAM, G. (1961):

Preliminary observations on the resistance of horse strongyles to phenothiazine.

J. Parasitol., 47, (Suppl.), 38-39

DRUDGE, J.H.; SZANTO, J.; WYANT, Z.N. (1962):

Studies on the anthelmintic thiabendazole in the horse: Critical tests.

Proc. IV. Pan-Am Congress of Veterinary Medicine and Zootechnics „Seminar on parasitic diseases with special reference to thiabendazole“ (13.11., Mexico City), 79-81

DRUDGE, J.H.; LYONS, E.T. (1965):

Newer development in helminth control and Strongylus vulgaris research.

Proc. 11th Ann. Meet. Amer. Ass. Equine Pract. (6.-8.12., Miami Beach / Florida), 381-389

DRUDGE, J.H.; LYONS, E.T. (1970):

Activity of dichlorvos against horse bots.

Mod. vet. Pract., 51, 45-46

DRUDGE, J.H.; LYONS, E.T.; TOLLIVER, S.C. (1975):

Critical and controlled tests of the antiparasitic activity of liquid and paste formulations of trichlorfon in the horse.

Vet. Med. / Small Anim. Clin., 70, 537-540

DRUDGE, J.H.; LYONS, E.T. (1976):

Zur Pathologie des Endoparasitenbefalls beim Pferd.

Die blauen Hefte, 55, 219-227

DRUDGE, J.H.; LYONS, E.T.; TOLLIVER, S.C. (1978):

Critical tests of the anthelmintic febantel in the horse: Activity of a paste formulation alone or with a trichlorfon paste.

Amer. J. vet. Res., 39, 1419-1421

DRUDGE, J.H.; LYONS, E.T.; TOLLIVER, S.C. (1979):

Benzimidazole resistance of equine strongyles - Critical tests of six compounds against population B.

Amer. J. vet. Res., 40, 590-594
