- Xu, H., Frank, J., Niedenzu, T., and Saenger, W. (2000) DNA helicase RepA: cooperative ATPase activity and binding of nucleotides. *Biochemistry* 39, 12225-12233.
- Xu, H., Frank, J., Holzwarth, J. F., Saenger, W., and Behlke, J. (2000) Interaction of different oligomeric states of hexameric DNA-helicase RepA with single-stranded DNA studied by analytical ultracentrifugation. *FEBS Lett.* 482, 180-184.
- Xu, H., Frank, J., Trier, U., Hammer, S., Schröder, W., Behlke, J., Schäfer-Korting, M., Holzwarth, J. F., and Saenger, W. (2001) Interaction of fluorescence labeled single-stranded DNA with hexameric DNA-helicase RepA: a photon and fluorescence correlation spectroscopy study. *Biochemistry* 40, 7211-7218.
- Xu, H., Ziegelin, G., Schröder, W., Frank, J., Ayora, S., Alonso, J. C., Lanka, E., and Saenger, W. (2001) Flavones inhibit the hexameric replicative helicase RepA. *Nucl. Acids Res.* 29, 5058-5066.
- Xu, H., Sträter, N., Schröder, W., and Saenger, W. (2002) Structure of RepA DNA helicase from plasmid RSF1010 at 1.95 Å resolution. *Acta Crystallogr. Sec. D*, in preparation.
