Figure 5-1: Neighbour-joining tree (TREECON) of Cordia and its allies with major subclades. The numbers on the branches indicate bootstrap support values to the clusters to the right of them (above: regular alignment, below: secondary structure alignment; percentages under 50% not shown). EHR: Ehretiaceae; EUC: Cordia sect. Cordia; GER: Cordia sect. Gerascanthus; HEL: Heliotropeae; MYX: Cordia sect. Myx; PHY: Cordia sect. Physocladae; PIL: Cordia sect. Pilicordia; RHA: Cordia sect. Rhabdocalyx; SUP: Cordia sect. Superbiflorae; VAR: Cordia sect. Varronia.
