# Danksagung

Ich möchte allen herzlich danken, die zum Gelingen dieser Arbeit beigetragen haben:

Prof. Robert Bittl für die Möglichkeit, in seiner Arbeitsgruppe dabei mitwirken zu können, ein neues, interessantes Projekt anzufangen, auch für offene Ohren und entscheidende Hinweise, wann immer *schwierige* Probleme auftraten;

Prof. Paul Fumagalli für die Übernahme des Zweitgutachtens;

Marc Brecht für die lehrreiche Zusammenarbeit und freundschaftliche Atmosphäre dabei, für viele tatenreiche „Blitzlösungen“ im Labor, für die auch mal die Flex in luftiger Höhe verwendet wurde, für die zahlreichen fruchtbaren Diskussionen über SMS am PS I sowie auch für philosophische Diskussionen allgemein;

Fedor Jelezko für schier unerschöpfliche Hilfsbereitschaft, Geduld und Freundlichkeit, für wichtige Hilfestellungen zum experimentellen Aufbau, dafür von seiner beeindruckenden fachlichen und technischen Kompetenz lernen zu dürfen;

Thomas Renger für seine unermüdliche Bereitschaft, mir in theoretischen Fragen mit Rat und Tat zur Seite zu stehen und mich auf angenehme Art zu motivieren;

Frank Müh für das zur Verfügung stellen seiner Monomerprobe und für hilfreiche Diskussionen, insbesondere bei speziellen Fragen zum PS I;

Volker Radics für die eine oder andere im Rahmen seiner Diplomarbeit geschickt durchgeführte Messung und natürlich für seine Gelassenheit;

Jana Nieder, Christian Teutloff und der gesamten Arbeitsgruppe für die freundliche und umgängliche Atmosphäre und Hilfsbereitschaft;

Jens Törring für den hervorragenden Interpreten „fsc2“ und die gewissenhafte Einbindung unserer Hardwarekomponenten und die genauso gewissenhafte Unterstützung bei allen programmrelevanten Fragen;

Eberhard Schlodder für die Bereitstellung von Proben, Ensemble-Messungen am PS I von *Synechococcus* sp. PCC 7002 und einigen hilfreichen Diskussionen;

Prof. Valter Zazubovich für das zur Verfügung stellen des Simulationsprogramms;

Prof. John Golbeck für das zur Verfügung stellen der PS I-Proben von *Synechococcus* sp. PCC 7002;

Joseph Thiel für den großartigen Kryostaten mit vielen raffinierten Detaillösungen und die aufopfernde Fürsorge, diesen in einem funktionsfähigen Zustand zu halten;

## *Danksagung*

Thomas Hänsel, Detlef Müller und dem Team der Feinwerktechnik für die Erstellung zahlreicher mechanischer Bauteile;

dem Team der TTL für die zuverlässige Heliumversorgung und insbesondere Hans Streuber für die beispiellose Lösung delikater feinwerktechnischer Probleme;

dem Team der Elektronikwerkstatt für die Erstellung und Reparatur diverser elektronischer Geräte, insbesondere Marian Luft für seine geistvollen Ideen und ihre professionelle Umsetzung, wie z.B. der Steuereinheit für den Polarisator;

Prof. Martin Wolf für einige Dauerleihgaben, wie z.B. vier Isolatoren;

Roswitha Brunn für das gewissenhafte Einwiegen von Chemikalien in zahllose Eppendorfgefäße;

meinen Eltern für ihre fortwährende und vorbehaltlose Unterstützung in allen Belangen;

meiner Freundin Jasmin dafür, dass sie immer für mich da war und mich unterstützt hat, wo sie nur konnte und für ihr Verständnis für die ausgedehnten Arbeitszeiten der letzten Jahre.
