Acknowledgements

I would like to express my gratitude to all those who have given me valuable assistance during this project. I am grateful to Prof. K. P. Hofmann and Dr. O. P. Ernst for giving me the opportunity to carry out this work and my special thanks for their valuable advice and critical reading of my thesis. I appreciate Prof. W. Reutter of the arrangement for my dissertation.

There are numerous of the people who have assisted me in the course of this project. Dr. G. Meißner and Dr. S. Schädel were very helpful providing me with their assistance any time I need. I would like to mention Dr. O. Fritze and Dr. R. Herrmann who always have had a piece of advise at difficult times. I would also like to mention the technique help of Mis. R. Hauer, C. Koch, I. Semjonow, J. Engelmann and H. Seibel. I also want to mention Miss K. Engel, K. Zimmermann and N. Müller for their valuable help.

Prof. B. Wiedenmann and Miss C. Mascow deserve special mention for their continues support, they made it possible that this work reached an end. I also have to mention each of my colleagues who in one way or the other have made my work a pleasure. It was specially nice to work with my colleagues in the Lab, I also appreciate the reading and comments of this work by most of my friends.

Outside science, I would like to mention many friends in Berlin who were a constant source of encouragement with their funny jokes and sense of humor.

Thank you for the support and understanding which you all have shown.
