
Acknowledgements

At this point, I want to acknowledge all those who helped me during this work, including the ones I will forget to include in the following list:

I would like first to thank Prof. Lux-Steiner for giving me the opportunity to complete my PhD at the Hahn-Meitner Institut, for her continuous support and work supervision.

I would also like to thank Prof. Brewer for his interest in this work and for its revision.

Very special thanks go to my colleague A. Meeder, for all those hours shared in the lab, in the office, in front of the blackboard with a piece of chalk in the hand, in the Kantine, in the football field... and still having fun when talking about CuGaSe₂. Alles gute!

To the series of CCSVT group leaders A. Jäger-Waldau, A. Rumberg and T. Schedel Niedrig, and to the members of the group, S. Lindner, R. Würz, M. Rusu, S. Wiesner, K. Höhn, T. Münchenberger, and S. Doka, for the many times they were there, at the right moment at the right place and for their constant help and support; also extensive for the same reasons to the pioneers D. Fischer, N. Meyer and Th. Dylla, and those who visited us, E. Arushanov and S.M. Babu.

Special mention of the KPFM community, S. Sadewasser, Th. Glatzel and N. Barreau, for sharing the expertise and for the nice time spent together.

Not to say of the Spanish community, I. Gavilanes and R. Bayón: va por ustedes!

Thanks to the CISSY group, particularly to J. Reichardt and I. Lauerman; to all the people from SE2, and particularly to J. Reiss, S. Schuler, S. Nishiwaki, Ch. Kaufman, C. Kelch, M. Kirsch, W. Eisele, U. Fiedeler, J. Beckmann, A. Belaidi, M. Dziejzina, M. Bär, R. Klenk, S. Siebentritt, A. Neisser, N. Regla, O. Papathanasiou; and to those from elsewhere, with the members of Rita la Caimana in first row, to U. Bloeck, P. Schubert-Bischoff, M. Wilhelm, J. Djordjevic, M. Kanis, K. Suárez, N. Pfänder and H. Sauer, to the friends on this side of world, and to those in the far, far east.

...y por supuesto, porque sin vosotros nada de esto habría ocurrido, a Sandra, Miguel y Carmen.
