I am deeply thankful to Prof. Lange, director of the Department of Congenital Heart Disease and Paediatric Cardiology, German Heart Institute Berlin, for offering me the opportunity to work as a guest doctor and undertake my doctoral project in his department. With his continuous support and encouragement I was able to complete this work successfully.

I also extend my sincere thanks to Dr. Peter Ewert. Under his guidance and fruitful advice, I was able to finish this project. I have also learnt a lot in the field of congenital heart disease from him.

I give my thanks to Dr. Abd EL Rahman for his kind help in writing my thesis through his good suggestions.

I wish to express my thanks to Prof. Dr. Yu-Guo Weng. I will never forget his kind help and care in my work and life.

In addition, I am grateful to Dr. Hashim Abdul-Khaliq, Dr. Oliver Kretschmar, Dr. Jan Nürnberg and all my colleagues of the paediatric department for their help.

Thanks also to Dr. Wei Hui, Dr. Xionggang Jiang, Dr. Guang Yang and Dr. Tong Li for their valuable suggestions.

I devote this thesis to my husband and son for their understanding and support. I am grateful to my parents for their support during my stay in Germany.
