

7. LIST OF PUBLICATIONS

Barra, M., M. Haumann, and H. Dau. 2005. Specific loss of the extrinsic 18 KDa protein from photosystem II upon heating to 47 degrees C causes inactivation of oxygen evolution likely due to Ca release from the Mn-complex. *Photosynth Res* 84(1-3):231-237.

Barra, M., M. Haumann, P. Loja, R. Krivanek, A. Grundmeier, and H. Dau. 2006. Intermediates in assembly by photoactivation after thermally accelerated disassembly of the manganese complex of photosynthetic water oxidation. *Biochemistry* 45(48):14523-14532.

Haumann, M., M. Barra, P. Loja, S. Loscher, R. Krivanek, A. Grundmeier, L.E. Andreasson, and H. Dau. 2006. Bromide does not bind to the Mn₄Ca complex in its S1 state in Cl(-)-depleted and Br(-)-reconstituted oxygen-evolving photosystem II: evidence from X-ray absorption spectroscopy at the Br K-edge. *Biochemistry* 45(43):13101-13107.

Haumann, M., P. Liebisch, C. Muller, M. Barra, M. Grabolle, and H. Dau. 2005. Photosynthetic O₂ formation tracked by time-resolved X-ray experiments. *Science* 310(5750):1019-1021.

Müller, C., P. Liebisch, M. Barra, H. Dau, and M. Haumann. 2005. The Location of Calcium in the Manganese Complex of Oxygenic Photosynthesis Studied by X-Ray Absorption Spectroscopy at the Ca K-Edge. *Physica Scripta* T115:847-850.

Conference Proceedings

Barra, M., M. Haumann, P. Pospisil and H. Dau. Response of the Photosystem II donor side to a Temperature Jump. Joint meeting of Belgian and German Biophysicists, 29. Mai - 1. Juni 2003, Hünfeld, (Poster).

Barra, M., M. Haumann, P. Pospisil and H. Dau. Response of the Photosystem II donor side to a Temperature Jump. XX Jornadas Argentinas de Botánica y XV Reunión Anual de la Sociedad Botánica de Chile, Octubre 2003. Universidad Nacional de San Luis. Argentina (Poster)

Barra, M., M. Haumann, and H. Dau. Specific loss of the extrinsic 18 KDa protein from photosystem II at 47 °C causes inactivation of oxygen evolution likely due to Ca release from the Mn-complex. 12. Photosynthese Workshop Nord-West, September 2004, Münster (Talk)

Barra, M., M. Haumann, and H. Dau. Intermediates in reassembly by photoactivation after heat-induced disassembly of the manganese complex of photosynthetic water oxidation. PS II Workshop, May 2006, Berlin (Poster)
