

## TABLE OF CONTENTS

AKNOWLEDGEMENTS	v
ABSTRACT	vi
ZUSAMMENFASSUNG	vii
1. INTRODUCTION	1
2. THEORY	6
2.1. Conceptual Framework	6
2.1.1. On the Role of Personal Goals in Development	8
2.1.2. Contextual Factors and their Impact on the Content of Personal Goals in Middle Adulthood	11
2.1.3. On the Relationship between Work and Family in Middle Adulthood	14
2.1.4. Relations between Work- and Family-Related Goals at the Individual Level	17
2.2. Interpersonal Contributions to the Pursuit of Work- and Family-Related Goals	20
2.2.1. Factors within the Partnership	21
2.2.1.1. Relations among the Goals of both Partners	22
2.2.1.1.1. Negative Interpersonal Goal Relations	22
2.2.1.1.2. Positive Interpersonal Goal Relations	24
2.2.1.1.3. Independence of Personal Goals	25
2.2.1.2. Antecedents of Positive and Negative Interpersonal Goal Relations	26
2.2.2. Grandparental Support in the Form of Childcare	27
2.2.3. Excursus: Investigating Mutual Influences in Social Relationships: The Actor-Partner-Interdependence Model	30
2.3. Possible Consequences of Differences in Interpersonal Contributions to the Pursuit of Work- and Family-Related Goals in Employed Parents	32
2.3.1. Micro Analytic Level: Patterns of Developmental Success as Indicated by Behavioral, Experiential, and Physiological Indicators	33
2.3.1.1. Behavioral Indicators	34
2.3.1.2. Experiential Indicators	38
2.3.1.3. Physiological Indicators	39
2.3.2. Macro Analytic Level: Patterns of Developmental Success as Indicated by Behavioral and Experiential Indicators	42

2.3.2.1.	Behavioral Indicators	43
2.3.2.2.	Experiential Indicators	44
2.4.	Summary and Working Model	44
3.	RESEARCH QUESTIONS AND HYPOTHESES	48
3.1.	How are Time-Related Characteristics of each Partner's Work and Family Goals Linked with Conflict and Convergence in Interpersonal Goal Relations?	49
3.2.	Are Differences in the Quality of Interpersonal Goal Relations Associated with Everyday Goal Pursuit and Goal Progress?	50
3.3.	Does Access to Grandparental Childcare Facilitate the Combination of Work and Family Goals in Employed Parents?	52
3.4.	Is the Engagement in Goal Pursuit and Goal Progress Associated with High Levels of both Subjective as well as Physiological Well-Being?	53
3.6.	Summary	54
4.	METHOD	57
4.1.	Sample	58
4.1.1.	Recruitment	58
4.1.2.	Participants	58
4.1.3.	Sample Selectivity	60
4.2.	First Measurement Contact	61
4.2.1.	Procedure	61
4.2.2.	Measures	62
4.2.2.1.	Personal Goals	62
4.2.2.2.	Interpersonal Goal Relations	63
4.2.2.3.	Antecedents of the Quality of Interpersonal Goal Relations	67
4.2.2.4.	Grandparental Involvement in Childcare	68
4.2.2.5.	Subjective Well-Being	68
4.3.	Second Measurement Contact	69
4.3.1.	Procedure	69
4.3.2.	Measures	70
4.3.2.1.	Morning Questionnaire	70
4.3.2.2.	Day Questionnaire	71
4.3.2.3.	Scale Aggregation	71

4.3.3.	Reactivity	72
4.4.	Third Measurement Contact	74
4.4.1.	Procedure	74
4.4.2.	Measures	74
4.4.2.1.	Subjective Well-Being	75
4.4.2.2.	Goal Progress	75
4.4.2.3.	Goal-Specific Satisfaction	75
4.5.	Advantages and Caveats of Assessments via Internet	76
4.6.	Data Analytic Strategies	76
5.	RESULTS	79
5.1.	Gender Differences in the Content of Personal Goals, Time-Related Goal Characteristics and Perceptions of Interpersonal Goal Conflict and Convergence	79
5.2.	Time-Related Goal Characteristics and the Quality of Interpersonal Goal Relations	82
5.2.1.	Comparing the Relationship between Goal Characteristics and Interpersonal Goal Conflict Ratings in Husbands and Wives	85
5.3.	Micro-Analytic Processes in Daily Life: Effects of the Quality of Interpersonal Goal Relations and Access to Grandparental Childcare on Everyday Goal Pursuit and how it is Associated with Subjective Mood and Physiological Arousal	87
5.3.1.	Interpersonal Goal Relations and Goal Pursuit in Daily Life	87
5.3.2.	Interpersonal Goal Relations and Variability in Goal Pursuit	91
5.3.3.	Comparisons of the Relationship between Interpersonal Goal Relations and Goal Pursuit in Husbands and Wives	93
5.3.4.	Access to Grandparental Childcare and Daily Goal Pursuit	95
5.3.5.	Relationship between Daily Goal Pursuit and Affect as well as Cortisol	98
5.4.	Macro-Analytic Processes: Effects of the Quality of Interpersonal Goal Relations and Overall Goal Progress and How it Relates to Different Indicators of Well-Being	101
5.4.1.	Interpersonal Goal Relations and Progress on Personal Goals	101
5.4.1.1.	Gender Differences in the Relationship between Interpersonal Goal Relations and Progress on Work and Family Goals	104
5.4.2.	Overall Goal Progress and Well-Being	106
5.5.	Follow-Up Analyses	108
5.6.	Summary of Results	115

6.	DISCUSSION	117
6.1.	The Quality of Interpersonal Goal Relations Questionnaire	119
6.2.	Antecedents and Consequences of the Quality of Interpersonal Goal Relations	120
6.2.1.	Individual Goal Characteristics and their Relationship with Conflict and Convergence in Interpersonal Goal Relations	120
6.2.2.	Conflict and Convergence in Interpersonal Goal Relations and Individual Goal Pursuit	122
6.2.2.1.	Interpersonal Goal Convergence: Everyday Goal Pursuit and Long-Term Goal Progress	123
6.2.2.2.	Interpersonal Goal Conflict: Everyday Goal Pursuit and Long-Term Goal Progress	125
6.2.3.	On the Buffering Effect of Access to Grandparental Childcare	131
6.2.4.	The Relationship between Goal Pursuit and Goal Progress and Subjective as well as Bodily Indicators of Well-Being	133
6.3.	Gender Differences	136
6.4.	Limitations	139
6.5.	Outlook	142
7.	REFERENCES	145
8.	APPENDICES	165
8.1.	Appendix A: Additional Information on the Instruments	166
8.2.	Appendix B: Additional Analyses Using Aggregates and Modeling Error Structures	172
8.3.	Appendix C: Additional Analyses on the Consequences of Interpersonal Conflict and Convergence Based on Correct Reports of Partner's Goals	180
8.4.	Appendix D: Additional Analyses on the Consequences of Interpersonal Goal Conflict: Predicting Actor's Goal Pursuit by Partner's Goal Pursuit	181
9.	LIST OF FIGURES AND TABLES	186
