

Literature

1. *Abdymanapov S.A.* One class of nonlinear Beltrami equation with singular point. Eurasian Mathematical Journal. 2005. V. 2. p. 3-11.(Russian)
2. *Abdymanapov S.A.* To theory of nonlinear Carleman-Vekua equation with singular point. Eurasian Mathematical Journal. 2005. V. 3. p. 3-21.(Russian)
3. *Abdymanapov S.A.* Nonlinear Carleman-Vekua equation with finite singular points. Vestnik of Eurasian National U. named by L.N.Gumilev, 2006, V. 2(48). p. 5-18.(Russian)
4. *Abdymanapov S.A.* An initial boundary problem for one class of elliptic systems of second order on the plane with singularity. Vestnik of National Academical Science of RK. 2005. V. 5. p. 3-7.(Russian)
5. *Abdymanapov S.A., Tungatarov A.B.* Some classes of elliptic systems in the plane with singular coefficients. –Almaty, «Gylym». 2005. 169p.(Russian)
6. *Abdymanapov S.A., Begehr H., Harutunyan G., Tungatarov A.B.* Boundary problem for Cauchy-Riemann systems on the quarter plane. Eurasian Mathematical Journal. 2005. V. 2. p. 12-23.
7. *Abdymanapov S.A., Begehr H., Tungatarov A.B.* Some Schwarz problems in a quarter plane. Eurasian Mathematical Journal. 2005. V. 3. p. 22-35.
8. *Altynbek S.A., Tungatarov A.B.* Dirichlet problem for one system of partial differential equations of second order in the plane. Vestnik of Eurasian National U. named by L.N.Gumilev. 2006. V. 4(50). p. 11-20.(Russian)
9. *Altynbek S.A.* About a nonhomogenous linear system of partial differential equation of second order Fuchs type in the plane. Eurasian Mathematical Journal. 2006. V. 2. p. 10-22.(Russian)
10. *Altynbek S.A., Tungatarov A.B.* Dirichlet problem for one class of partial differential equations of second order of Fuchs type. Vestnik of Eurasian National U. named by L.N.Gumileva. 2006. V. 6(52). p. 21-28.(Russian)
11. *Altynbek S.A., Tungatarov A.B.* About one classes of partial differential equations of second order of Fuchs type in the plane. Abstract of

- International 11-th Interuniversity Conference of Mathematics and Mechanics, Devoted to the 10-th Year of Eurasian National University named by L.N. Gumilev (25-26 May, 2006, Astana) p. 77.(Russian)
12. *Altynbek S.A., Tungatarov A.B.* Dirichlet problem for one class of systems of Fuchs type in the plane. Abstract of International Science Conference «Contemporary Differential Equation Problem, Theory of Operator and Spaces Technologies», 20-22 September 2006. Almaty. p.23-24(Russian)
 13. *Altynbek S.A.* Dirichlet problem for one classes of partial differential systems of second order of Fuchs type in the plane. Eurasian Mathematical Journal, 2007. V. 3 p. 34-42.(Russian)
 14. *Altynbek S.A., Tungatarov A.B., Kasymbetova M.T.* Dirichlet problem for one classes of partial differential equation of second order of Fuchs type in the plane. International Science Conference Material «Theory Approaching and Inbedding Functional Spaces». Karaganda. 2006. p.51-52.(Russian)
 15. *Altynbek S.A., Abdymanapov S.A.* Dirichlet problem for one model system of partial differential equations of second order of Fuchs type in the plane. Differential Equations, Theory of Functions, and Applications International Conference Dedicated to the Centennial of Academician Ilia N. Vekua May 28-June2, 2007. Abstracts p.33-35, Novosibirsk, Russia(Russian)
 16. *Begehr H., Dao-Ding Dai.* On continuous solutions of a generalized Cauchy-Riemann system with more than one singularity. Differential Education. 2004. V. 196. p.67-90
 17. *Begehr H.* Boundary value problems in complex analysis in the plane. I. Asos. Mat.Venezolana. 2005. V. 12. p.65-85
 18. *Bliev N.K.* About existence of analytic solution of degenerate elliptic systems near the degenerate point. Autoreferat Dissertation for Candidate of Physic-Mathematics Since, Nauka. Alma-Ata- 1965.(Russian)

19. *Bliev N.K.* Generalized analytic functions in fractional spaces. – Alma-Ata: Nauka, 1985. 160p.(Russian) English translation. Longman, Harlow. 1997
20. *Bitsadze A.V.* Some classes of partial differential equations – M.: Nauka, 1981. 448p.(Russian)
21. *Vekua I.N.* Generalized analytic functions. M. Fizmatgiz, 1959. English translate. Pergamen, Oxford, 1967.(Russian)
22. *Vekua I.N.* Systems of elliptic type differential equations of first order and boundary problem with application for surface theory. Mathematical collection with 1952. V. 31(73), No 2. p. 234-314.(Russian)
23. *Vekua I.N.* Theory of generalized analytic function geometry and mechanic. Work all-USSR Mathematic Congress, 1956. V.2. (Russian)
24. *Vekua I.N.* Special fixed point of generalized analytic functions. Dokl. Acad. Nauk. USSR. 1962. V.145, No 1. p. 24-26.(Russian)
25. *Mikhailov L.G.* A new class of special integral equations and his application for differential equation with singular coefficients – Dushanbe: Irfon. 1963. 183p.(Russian)
26. *Mikhailov L.G.* For some singular partial differential equations. Docl. Acad. Nauk. USSR. 1991. V. 319, No 1. p. 46-52.(Russian)
27. *Mikhailov L.G.* For some generalized nonlinear Cauchy-Riemann systems. Report. Acad. Nauk Takj. SSR, 1984. V.27, No 6. p. 295-298.(Russian)
28. *Usmanov Z.D.* Infinitesimal bendings of surfaces of positive curvature with an isolated flattening point. Differential Geometry. Banach Center Publications. 1984. V. 12. p.241-272. (Russian)
29. *Usmanov Z.D.* About infinitesimal bendings of surfaces of positive curvature with isolate flattening point. Mathematical Collection 1970. V.83(125): 4(12). p. 596-615.(Russian)
30. *Usmanov Z.D.* Isometrics conjugate parameterization surface near a flattening point. Report. Seminar Applied Mathematic Institute named by I.N. Vekua 1985. V.1, No 1. Tbilisi. (Russian)
