1	Abstract	1
2	Kurzfassung	3
3	Introduction	5
4	Experiment	11
4.1	Experimental Chamber	11
4.2	Photoelectron Spectroscopy (XPS and UPS)	13
4.3	Near Edge X-Ray Absorption Fine Structure Spectroscopy (NEXAFS)	26
4.4	Scanning Tunneling Microscopy (STM)	34
4.5	Photoisomerisation (UV lamp)	40
4.6	Theoretical Calculations	42
4.7	Samples and Preparation	46
4.7.1	Si(100)	46
4.7.2	Cu(110)	46
4.7.3	Adsorbates	47
5	Isomerisation	49
5.1	Conformation and Isomerisation	49
5.1.1	Conformational Isomers	49
5.1.2	Photoisomerisation of Azobenzenes and Stilbenes	51
5.2	Isolated Molecular Switches - Gas Phase Stilbene	58
5.2.1	Stilbene in the Gas Phase	58

5.2.2	Identification of Isomers - NEXAFS	60
5.3	Molecular Switches on a Semiconductor - Stilbene on Si(100)	69
5.3.1	Adsorption on Si(100)	69
5.3.2	Identification of Isomers - NEXAFS	77
5.3.3	Photoinduced Isomerisation on Si(100)	85
5.4	Molecular Switches on a Metal - Stilbene on Cu(110)	88
5.4.1	Adsorption on Cu(110)	88
5.4.2	Identification of Isomers - NEXAFS	92
5.4.3	Photoinduced Isomerisation on Cu(110)	94
5.5	Photoisomerisation of Stilbene	101
6	Chirality of Molecular Assemblies	105
6.1	Chirality	105
6.2	Molecular Assemblies	107
6.2.1	Molecular Adsorption and Self Assembly on Surfaces	107
6.2.2	Prochirality in low Dimensions	109
6.3	Chiral Adsorption of Stilbenedicarboxylic Acid	115
6.3.1	Adsorption Behavior of Stilbene Dicarboxylic Acid on Cu(110) . . .	115
6.3.2	Chiral and Racemic Adsorption Domains	123
6.3.3	Chiral Behavior of Supramolecular Assemblies	126
7	Molecular Chirality in Chiral Assemblies	131
7.1	Detection of Chirality	131
7.1.1	Descriptors of Chiral Centers	131
7.1.2	Chirality Index	133
7.1.3	Optical Activity and Circular Dichroism	136
7.2	Chirality of Tartaric Acid	147
7.2.1	Adsorption of Tartaric Acid on Cu(110) - Chiral and achiral ad- sorption phases	147
7.2.2	Spectral Asymmetry of adsorbed Chiral Tartaric Acid	153

7.2.3	Achiral meso-tartaric acid	155
7.3	Chirality of Alanine and Cysteine	156
7.3.1	Adsorption phases of Alanine and Cysteine	156
7.3.2	Asymmetry dependence - structure or optical activity?	159
7.3.3	At the edge of measurement - technical difficulties	161
7.4	Chirality in Photoemission	163
8	Summary, Conclusion and Outlook	165
