

## 8 Literaturverzeichnis

**ADAMS, G. P.; MATTERI, R. L.; KASTELIC, J. P.; KO, J. C. H.; GINTHER, O. J. (1992):**

Association between surges of follicle-stimulating hormone and the emergence of follicular waves in heifers.

J. Reprod. Fertil., **94**, 177-188.

**ADAMS, G. P.; KOT, K; SMITH, C. A.; GINTHER, O. J. (1993):**

Selection of a dominant follicle and suppression of follicular growth in heifers.

Anim. Reprod. Sci., **30**, 259-271.

**ADASHI, E. Y.; RESNIK, C. E.; SVOBODA, M. E.; VAN WYK, J. J. (1985a):**

Somatomedin C mediated potentiation of follicle stimulating hormone induced aromatase activity of cultured rat granulosa cells.

Endocrinology, **117**, 2313-2320.

**ADASHI, E. Y.; RESNIK, C. E.; SVOBODA, M. E.; VAN WYK, J. J. (1985b):**

Somatomedin C enhances induction of luteinizing hormone receptors by follicle stimulating hormone in cultured rat granulosa cells.

Endocrinology, **116**, 2369-2375.

**ADASHI, E. Y.; RESNIK, C. E.; SVOBODA, M. E.; VAN WYK, J. J. (1985c):**

Insulin Like growth factors as intraovarian regulators of granulosa cell growth and function.

Endocr. Rev., **6**, 400-420.

**ADASHI, E. Y. u. RESNIK, C. E. (1986):**

Antagonistic interaction of transforming growth factors in the regulation of granulosa cell differentiation.

Endocrinology, **199**, 1879-1881.

**AKUFO, E.; PHELPS, D.A.; TIBBETS, F.D.; FOOTE, W. D. (1988):**

Influence of follicular components on oocyte meiosis in vitro.

Theriogenology, **30**, 643-647.

**ALBERTINI, D. (1992):**

Regulation of meiotic maturation in mammalian oocytes: interplay between exogenous Cues and the microtubule cytoskeleton.

Bio. Essays, **14**, 97-103.

**ALI, A. (2000):**

Zur Charakterisierung des Dominanten Follikels der ersten Follikelwelle unter Berücksichtigung seines Einflusses auf den Erfolg der Superovulation im Rahmen des Embryotransfers beim Rind.

Diss. Vet. Med., FU-Berlin.

**ALI, A.; GILLES, M.; LANGE, A.; GLATZEL, P. S. (1998):**

Follicle dynamics and ovulation rate in dairy cows following ablation of the dominant follicle and prostaglandin F<sub>27</sub> application.

In: Gametes, development and function, Ed. by A. LAURIA, F. GANDOLFI, G., ENNE, L. GIANAROLI, Serona Symposia, Italy, 503.

**ALILA, H. W. u. HANSEL, W. (1984):**

Origin of different cell types in the bovine corpus luteum as characterized by specific monoclonal antibodies.

Biol. Reprod., **31**, 17015-17025.

**ASDELL, S. A. (1962):**

Mechanism of ovulation.

In: The ovary, Ed. by S. ZUKERMAN, London, Academic Press.

**ASSEY, R. J.; HYTTEL, P.; GREVE, T.; PURWANTARA, B. (1994):**

Oocyte morphology in dominant and subordinate follicles.

Mol. Reprod. Dev. **37**, 335-344.

**BADINGA, L.; DRIANCOURT, M. A.; SAVIO, J. D.; WOLVENSON, D.; DROST, M.; DE LA SOTA, R. L.; THATCHER, W. W. (1992):**

Endocrine and ovarian responses associated with the first-wave dominant follicle in cattle.

Biol. Reprod., **47**, 871-883.

**BAIRD, T. G.; CAMPELL, B. K.; MANNS, G. E.; McNEILLY, A. S. (1991):**

Inhibin and estradiol in the control of FSH-secretion in the sheep.

J. Reprod. Fertil., **43** (Suppl.), 125-138.

**BAKER, T. G. (1972):**

Oogenese und Ovulation.

In: Fortpflanzungsbiologie der Säugetiere. Band 1: Keimzellen und Befruchtung. AUSTIN, R und SCHORT, V. (Hrsg). Verlag PAUL PAREY. Berlin und Hamburg, 19-40.

**BAKER, T. G. u. HUNTER, R. H. (1978):**

Oogenesis and follicular growth in the cow: implications for superovulation.

In: Control of Reproduction in the cows. SREENAN (Ed.), Martinus Nijhoff, Boston, 34-49.

**BALL, G. D.; LEIBFRIED, M. L.; LENZ, R. W.; AX, R. L.; BAVISTER, B. D.; FIRST, N. L. (1983):**

Factors affecting successful in vitro fertilization of bovine follicular oocytes.

Biol. Reprod., **28**, 217-225.

**BAO, B. u. GARVERICK, H. A. (1998):**

Expression of steroidogenic enzyme and gonadotropin receptor genes in bovine follicles during ovarian follicular waves: a review.

J. Anim. Sci., **76**, 1903-1921.

**BAVISTER, B. D.; ROSE-HELLEKANT, T. A.; PINYOPUMMINT, T. (1992):**  
Development of in vitro matured/ in vitro fertilized embryos into morulae and blastocysts in defined culture media.  
Theriogenology, **37**, 127-146.

**BEARCH, A. J.; SAVOA, D.; GLENCROSS, R. G.; MCLEOD, B. J.; KNIGHT, P. G., (1989):**  
Treatment of ovariectomized heifers with bovine follicular fluid specially suppresses pituitary levels of FSH.  
J. Mol. Endocrinol., **3**, 85-91.

**BECKER, F. (1994):**  
Untersuchungen zur Follikelentwicklung und zur Luteolyse nach PGF<sub>2</sub>? Applikation an verschiedenen Zyklustagen beim Rind.  
Diss. Vet. Med., FU-Berlin.

**BERGFELT, E. G. M.; KOJIMA, F. N.; CUPP, A. S.; WEHRMAN, M. E.; PETERS, K. E.; MARISCAL, V.; SANCHES, M.; KINDER, J. E. (1996):**  
Changing dose of progesterone result in sudden changes in frequency of luteinizing hormone pulses and secretion of 17 $\beta$ -estradiol in bovine females.  
Biol. Reprod., **54**, 546-553.

**BERNARD, C.; LAMBERT, R. D.; BELAND, R.; BELANGER, A. (1984):**  
Laparoscopic investigation of the bovine ovary in the preovulatory phase of the cycle.  
Theriogenology, **22**, 143-150.

**BICASAK, T. A.; SHIMONAKA, M.; MALKOUSKI, M.; LING, N. (1990):**  
Insulin like growth factor binding protein (IGF-BP), inhibition of granulosa cell function: effect on cyclic adenosine 3', 5'-Monophosphate, Deoxyribonucleic acid synthesis and comparison with the effect on an IGF1 antibody.  
Endocrinology, **126**, 2184-2189.

**BLONDIN, P.; COENEN, K.; GUILBAULT, L. A.; SIRARD, M. A. (1997):**

In vitro production of bovine embryos: development competence is acquired before maturation.

Theriogenology, **47**, 1061-1075.

**BRACKETT, B. G. u. ZUELKE, K. A. (1993):**

Analysis of factors involved in the in vitro production of bovien embryos.

Theriogenology, **39**, 43-64.

**BRITT, J. H. (1992):**

Impacts of early postpartum metabolism on follicular development and fertility.

Bovine practitioner, **24**, 39-43.

**BROWN B. W. u. DRIANCOURT, M. A. (1989):**

Blood flow in the ovaries and ovarien follicles of romanov and prealpes du sud ewes.

J. Reprod. Fertil., **85**, 317-323.

**BUCCIONE, R.; SCHRÖDER, A. C.; EPPIG, J. J. (1990):**

Interactions between somatic cells and germ cells throughout mammalian oogenesis.

Biol. Reprod., **43**, 543-547.

**CALLESEN, H.; GREVE, T.; HYTTEL, P. (1988):**

Preovulatory evaluation of the superovulatory response in donor cattle.

Theriogenology, **30**, 477-488.

**CAROLAN, C. P.; MONAGHAN, P.; GALLAGHER, M.; GORDON, I. (1994):**

Effect of recovery method on yield of bovine oocytes per ovary and their development competence after maturation, fertilization and culture in vitro.

Theriogenology, **41**, 1061-1068.

**CAUBO, B.; DE VINNA, R. S.; TOMETTA, S. A. (1989):**

Regulation of steroidogenesis in cultured porcine theca cells by growth factors.

Endocrinology, **125**, 321-326.

**CHANNIG, C. P. u. KAMMERMAN, S. (1974):**

Binding of gonadotropins to the ovarian cells.

Biol. Reprod. **10**, 179-198.

**CHOI, S. H.; FUNAHASHI, H.; NIWA, K. (1998):**

Both bovine oocytes and cumulus cells produce plasminogen activator during in vitro maturation.

Theriogenology, **49**, 309.

**CRAN, D. G. (1989):**

Cortical granules during oocyte maturation and fertilization.

J. Reprod. Fertil. Suppl., **38**, 49-62.

**CRITSER, E. S.; LEIBFRIED-RUTLEDGE, M. L.; EYESTONE, W. H.; NORTHEY, D. L.; FIRST, N. L. (1986):**

Acquisition of developmental competence during maturation in vitro.

Theriogenology, **25**, 152.

**DE LOOS, F. A.; BEVERS, M. M.; DIELEMAN, S. J.; KRUIP, Th. A. M. (1991):**

Follicular and oocyte maturation in cows treated for superovulation.

Theriogenology, **35**, 537-547.

**DEKEL, N.; HILLENSJO, Y.; KRAICER, P. F. (1979):**

Maturation effects of gonadotropins on the cumulus-oocyte-complex of the rat.

Biol. Reprod., **20**, 191-197.

**DIAZ, T.; MANZO, M.; TROCONIZ, J.; BENACCHIO, N.; VERDA, O. (1986):**

Plasma progesteron levels during the estrous cycle of Holstein and brahman cows, carora type and cross-breed heifers.

Theriogenology, **26**, 419-432.

**DIEKMAN, M. A.; O'CALLAGHAN, P.; NETT, T. M. ; NISWENDER, G. D. (1978):**

Effect of prostaglandinF<sub>27</sub> on the numbers of LH receptors in ovine corpora lutea.

Biol. Reprod., **19**, 1010-1013.

**DIELEMAN, S. J. u. BEVERS, M. M. (1987):**

Effects of monoclonal antibody against PMSG administered shortly after the preovulatory LH surge on the time and number of ovulation in PMSG/PG-treated cows.

J. Reprod. Fertil., **81**, 533-542.

**DÖCKE, F. (1994):**

Veterinärmedizinische Endokrinologie.

Gustav-Fischer-Verlag Jena.

**DOWNS, S.M. (1993):**

Factors affecting resumption of meiotic maturation in mammalian oocyte. Theriogenology, **39**, 65-79.

**DRIANCOURT, M. A. (1991):**

Follicular dynamics in sheep and cattle.

Theriogenology, **35**, 55-79.

**DUFOUR, J. J.; WHITMORE, H. L.; GINTHER, O. J.; CASIDA, L. E. (1972):**

Identification of the ovulating follicle by its size on different days of the estrus cycle in heifers.

J. Anim. Sci., **34**, 85-87.

**ECTORS, F. J.; KOULISCHER, JAMAR, M.; HERENS, C.; VERLOES, A.; REMY, B.; BECKERS, J. F. (1995):**

Cytogenetic study of bovine oocytes maturation in vitro.

Theriogenology, **44**, 445-450.

**EDMONDSON, A. J.; FISSORE, R. A.; PASHEN, R. L.; BONDURANT, R. H., (1986):**

The use of ultrasonography for the study of the bovine reproductive tract. 1. Normal and pathological ovarian structures.

Anim. Reprod. Sci., **12**, 157-165.

**EDWARDS, R. G. (1965):**

Maturation in vitro of mouse, sheep, cow, pig, rhesus monkey and human ovarian oocytes.

Nature, **208**, 349-351.

**ENGLAND, B. G.; WEBB, R.; DOHMER, M. K. (1981):**

Follicular steroidogenesis and gonadotrophin binding to ovine follicles during the oestrous cycle.

Endocrinology, **109**, 881-887.

**EPIG, J. J. (1979):**

FSH stimulates hyaluronic acid synthesis by oocyte-cumulus cell complexes from mouse preovulatory follicles.

Nature, **281**, 483-484.

**EPIG, J. J. (1982):**

The relationship between cumulus cells-oocyte coupling, oocyte meiotic maturation, and cumulus expansion.

Dev. Biol., **89**, 268-272.

**EPIG, J. J. (1991):**

Maintenance of meiotic arrest and the induction of oocyte maturation in mouse-granulosa cell complexes developed in vitro from preantral follicles.

Biol. Reprod., **45**, 824-830.

**EPIG, J. J.; SCHULTZ, R.M.; O'BRIEN, M.; CHESNEL, F. (1994):** Relationship between the developmental programs controlling nuclear and cytoplasmic maturation of mouse oocytes.

Dev Biol., **164 (1)**, 1-9.

**EPPIG, J. J. (1993):**

Regulation of mammalian oocyte maturation. In: Adahi, E.Y. ; Leung, P.C.K.: The ovary.

Raven Press, New York, 185-208.

**EPPIG, J. J. (1996).**

Coordination of nuclear and cytoplasmic oocyte maturation in eutherian mammals. *Reprod. Fertil. Dev.*, **8**, 485.

**EPPIG, J. J.; O'BRIEN, M. J.; PENDOLA, F. L.; WATANABE, S. (1998):**

Factors affecting the development competence of mouse oocytes grown in vitro: Follicle-stimulating hormone and insulin.

*Biol. Reprod.*, **59**, 1445-1453.

**ERICKSON, B. H.; NKATANI, A.; LING, N.; SHIMASAKI, S. (1992):**

Cyclic changes in IGF-binding protein-4 messenger ribonucleic acid in the rat ovary. *Endocrinology*, **130**, 233-636.

**ERICKSON, B. H. (1966):**

Development and senescence of the postnatal bovine ovary.

*J. Anim. Sci.* **25**, 800-805.

**ERICKSON, B. H.; REYNOLDS, R. A.; MURPHREE, R. L. (1976):**

Ovarian characteristics and reproductive performance in aged cows.

*Biol. Reprod.*, **15**, 555-560.

**EROGLU, A.; MEINECKE, B. (1990):**

Polypeptide synthesis in vivo and vitro matured porcine oocytes.

*Reprod. Dom. Anim.*, **25**, 261-268.

**ESPEY, L. C. (1994):**

Current status of the hypothesis that mammalian ovulation is comparable to an inflammatory reaction.

*Biol. Reprod.*, **50**, 233-238.

**EVANS, A. C.; ADAMS, G. P.; RAWLINGS, N. C. (1994):**

Follicular and hormonal development in prepuberal heifers from 2 to 36 weeks of age.

J. Reprod. Fertil., **102 (2)**, 463-470.

**EVANS, A. C. u. FORTUNE, J. E. (1997):**

Selection of the dominant follicle in cattle occurs in the absence of difference in the expression of messenger ribonucleic acid for gonadotropin receptors.

Endocrinology, **138**, 2963-2971.

**VON FEHRN, S.; HAGERODT, A.; GLATZEL, P. S. (1990):**

Synchron induzierte und stimulierte Follikelentwicklung am Rinderovar.

Reprod. Dom. Anim., **25**, 125-126.

**FIGUEIREDO, R. A.; BARROS, C. M.; PINHEIRO, O. L.; SOLER, J. M. P. (1997):**

Ovarian follicular dynamics in nelore breed (*Bos indicus*) cattle.

Theriogenology, **47**, 1489-1505.

**FINDLAY, J. K. (1986):**

The nature of inhibin and his use in the regulation of fertility and diagnosis of infertility.

Fertil. Steril., **46**, 770-783.

**FINDLAY, J. K.; TSCHONIS, C. G.; STAPELS, L. D. (1986):**

Inhibin secretion by the sheep ovary.

J. Reprod. Fertil., **76**, 751-761.

**FINDLAY, J. K.; SAI, X.; SHAIKOVSKI, L. (1990):**

Role of inhibin related peptides as intragonadal regulators.

Reprod. Fertil. Dev., **2**, 205-218.

**FORTUNE, J. E. (1986):**

Bovine theca and granulosa cells interact to promote androgen production.  
Biol. Reprod., **35**, 292-299.

**FORTUNE, J. E. (1994):**

Ovarian follicular Growth and development in Mammals.  
Biol. Reprod., **50**, 225-232.

**FORTUNE, J. E. u. QUIRK, S. M. (1988):**

Regulation of steroidogenesis in bovine preovulatory follicles.  
J. Anim. Sci. (Suppl), **2**, 1-9.

**FORTUNE, J. E.; SIRIOS, J.; QUIRK, S. M. (1988):**

The growth and differentiation of ovarian follicles during the bovine estrous cycle.  
Theriogenology, **29**, 95-109.

**FORTUNE, J. E.; SIRIOS, J.; TURZILLO, A. M.; LAVIOR, M. (1991):**

Follicle selection in domestic ruminants.  
J. Reprod. Fertil. (Suppl.), **43**, 187-198.

**FORTUNE, J. E. u. HANSEL, W. (1985):**

Concentration of steroids and gonadotropins in follicular fluid from normal heifers and heifers primed for superovulation.  
Biol. Reprod., **32**, 1069-1079.

**FUHRER, F.; MAYR, B.; SCHELLANDER, K.; KALAT, M.; SCHLEGER, W. (1989):**

Maturation competenc and chromatin behaviour in growing and fully grown cattle oocytes.  
J. Vet. Med. Ass., **36**, 766-775.

**GIBBONS, J. R.; KRISHER, R. L.; CARLIN, S. K.; PEARSON, R. E.; GWAZDAUSKAS, F. C. (1995):**

In vitro embryo production after microinjection and ovarian dynamics following transvaginal follicular oocyte aspiration.

Theriogenology, **43**, 1129-1139.

**GINTHER, O. J.; KNOPF, L.; KASTLIC, J. P. (1989):**

Ovarian follicular dynamic in heifer during early pregnancy.

Biol. Reprod., **41**, 247-254.

**GINTHER, O. J.; WILTBAK, M. C.; FRIKE, P. M.; GIBBONS, J. R.; KOT, K. (1996):**

Selection of Dominant Follicle in Cattle.

Biol. Reprod., **55**, 1187-1195.

**GINTHER, O. J.; KOT, K.; KULICK, L. J.; WILTBAK, M. C. (1997):**

Sampling follicular fluid without altering follicular status in cattle: oestradiol concentrations early in a follicular wave.

J. Reprod. Fertil., **109**, 181-186.

**GINTHER, O. J.; BERGFELT, D. R.; KULICK, L. J.; KOT, K. (1998):**

Pulsatility of systemic FSH and LH concentrations during follicular-wave development in cattle.

Theriogenology, **50**, 507-519.

**GLATZEL, P. S.; LAHLOU-KASSI, A.; STOLLA, R.; LEIDL, W. (1979):**

Versuche zur Zyklussynchronisation einer Milchviehherde in Marokko mit dem PGF<sub>2α</sub>-Analog Iliren<sup>®</sup>.

Tierärztl. Umschau, **34**, 752-758.

**GLATZEL, P. S. u. HUSS, J. (1989):**

Morphologische und endokrinologische Untersuchungen an Eierstockzysten des Rindes.

Fertilität, **5**, 228-232.

**GLATZEL, P. S. u. SCHALLENBERGER, E. (1990):**

Klinische und endokrinologische Untersuchung zur Ovarfunktion von Rindern mit Fruchtbarkeitssörungen.

Berl. Münch. Tierärztl. Wschr., **103**, 202-206.

**GLATZEL, P. S. (1992):**

Zur Problematik des zystischen Rinderovars: Morphologische, sonographische und endokrinologische Untersuchungen.

Tierärztl. Umschau, **47**, 72-76.

**GLATZEL, P. S. (1999):**

Zur Aussagefähigkeit von Steroidhormonen im Kot von Rindern für deren Ovarfunktion.

Tierärztl. Prax., **27**, 36-40.

**GONG, J. P.; BRMLEY, T. A.; GUTIERRZ, C. G.; PETES, A. R.; PETERS, A. R.; WEBB, R. (1995):**

Effect of chronic treatment with a gonadotropin-releasing hormone agonist on peripheral concentration of FSH and LH and ovarian function in heifers.

J. Reprod. Fertil., **105**, 263-270.

**GOODMAN, A. L. u. HODGEN, G. D. (1983):**

The ovarian triad of the primate menstrual cycle.

Recent Progress in Hormone Research., **134**, 11-18.

**GREVE, T.; MADISON, V.; AVERY, B.; CALLESEN, H.; HYTTEL, P. (1993):**

In vitro production of bovine embryos: A progress report and the consequences on the genetic up grading of cattle populations.

Anim. Reprod. Sci., **33**, 51-69.

**GRUNERT, E. (1979):**

Zur Problematik der rektalen Ovarkontrolle beim Rind.

Prakt. Tierarzt, **60**, 13-18.

**GUILBAULT, L. A.; ROUILLIER, P.; MATTON, P.; GLENCROSS, R. G.; BEARD, A. J.; KNIGHT, P. G. (1993):**

Relationships between the level of atresia and inhibin contents (alpha subunit and alpha-beta dimer) in morphologically dominant follicles during their growing and regressing phases of development in cattle.

Biol. Reprod., **48**, 268-276.

**HAGEMANN, L. J. (1999):**

Influence of the dominant follicle on oocytes from subordinate follicles. Theriogenology, **51**, 449-459.

**TAN, S. J. u. LU, K. H. (1990):**

Effects of different oestrous cycles, stages of ovaries and sizes of follicles on generation of IVF early bovine embryos.

Theriogenology, **33**, 335.

**THIBAUT, C. (1977):**

Are follicular maturation and oocyte maturation independent processes? J. Reprod. Fertil., **51**, 1-15.

**THIBAUT, C.; SZÖLLÖSI, D.; GERARD, M. (1987):**

Mammalian oocyte maturation.

Reprod. Nutr. Dev., **27**, 865-896.

**TROUNSON, A.; PUSHETT, D.; MACLELLAN, L. J.; LEWIS, I.; GARDNER, D. K. (1994):**

Current status of IVM/IVF and embryo culture in humans and farm animals. Theriogenology, **41**, 57-66.

**TSAFRIRI, A.; LIEBERMAN, M. E.; KOCH, Y.; BAUMINGER, S.; CHOBSIENG, P.; ZOR, U.; LINDNER, H. R. (1976):**

Capacity of immunologically purified FSH to stimulate cyclic AMP accumulation and steroidogenesis in Graafian follicles and to induce ovum maturation and ovulation in the rat.

Endocrinology., **98 (3)**, 655-61.

**TSAFRIRI A. u. DEKEL N. (1994):**

Molecular mechanism in ovulation. In: Findlay, J. K.: Molecular mechanism of female reproductive system.

Academic Press, New York, 207-258.

**TSONIS, C. G.; CARSON, R. S.; FINDLAY, J. K. (1984):**

Relationships between aromatase activity, follicular fluid oestradiol beta and testosterone concentrations, and diameter and atresia of individual ovine follicles.

J. Reprod. Fertil., **72**, 153-163.

**TURZILLO, A. M. u. FORTUNE, J. E. (1990):**

Suppression of the secondary FSH surge with bovine follicular fluid is associated with delayed ovarian follicular development in heifers.

J. Reprod. Fertil., **89**, 643-653.

**VAN DEN HURK, R.; SPEK, E. R.; DIJKSTRA, G.; VAN VORSTENBOSCH, C. J.; HULSHOF, S. C.; DIELEMAN, S. J. (1992):**

Effect of pregnant mares' serum gonadotrophin on the micromorphology of antral follicles in heifers, with special reference to atypical granulosa cells.

J Reprod Fertil., **95 (3)**, 903-13.

**WALTER, D. L. u. SCHALLENBERGER, E. (1984):**

Pulsatile secretion of gonadotropins, ovarian steroids and ovarian oxytocin during the periovulatory phase of the oestrous cycle in the cow.

J. Reprod. Fertil., **71**, 503-512.

**WALTON, J. S.; VEENHUIZEN, L. P.; KING, G. J. (1987):**

Relationships between time of day, estrous behavior and the preovulatory luteinizing hormone surge in Holstein cows after treatment with Cloprostenol.

J. dairy Sci., **70**, 1652-1663.

**WEBB, R. u. ENGLAND, D. G. (1982):**

Relationship between LH receptor concentrations in theca and granulosa cells and in vivo and vitro steroid secretion of ovine follicles during the preovulatory period.  
J. Reprod. Fertil., **66**, 169-180.

**WICKRAMASINGHE, D.; EBERT, K. M.; ALBERTINI, D. F. (1991):**

Meiotic competence acquisition is associated with the appearance of M-phase characteristics in growing mouse oocytes.  
Dev Biol. **143 (1)**, 162-72.

**YANG, N. S. u. LU, K. H. (1990):**

The influence of bovine oocyte type on in vitro fertilization and subsequent development in vitro.  
Theriogenology, **33**, 335.

**YANG, N. S.; LU, K. H.; GORDON, I. (1990):**

In vitro fertilization (IVF) and culture (IVC) of bovine oocytes from stored ovaries.  
Theriogenology, **33**, 352.

**YANG, X.; KUBOTA, C.; SUZUKI, H.; TANEJA, M.; BLOS, P. E.; PRESICCE, G. A. (1998):**

Control of oocyte maturation in cows-biological factors.  
Theriogenology, **49**, 471-482.

**YING, S. Y.; BEKER, A.; LING, L.; VENO, N.; GALLEMIN, R. (1988):**

Inhibin and ?-type transforming growth factor have opposite modulating effect of the follicle.  
Biochem. Res. Commun., **136**, 969-975.

**ZAMBONI, L. (1976):**

Modulations of follicle cell-oocyte association in sequential stages of mammalian follicle development and maturation.  
In: Crosignani, P. G.; Mishell, D. R. Ovulation in Human., London Academic Press.

**ZHANG, L.; JIANG, S.; WOZINIAK, J. P.; YANG, X.; GODKE, R. A. (1995):**

Cumulus cell function during bovine oocyte maturation, fertilization, and embryo development in vitro.

Mol. Reprod. Dev., **40**, 338-344.
