1. Y.-J. Li, J. Osolonovitch, N. Mazouz, F. Plenge, K. Krischer, and G. Ertl, *Turing-type patterns on electrode surfaces*. *Science*, 2001. **291**(5512): p. 2395-2398.
2. J. Osolonovitch, Y.-J. Li, C. Donner, and K. Krischer, *The  $Fe(CN)_6^{3-}/Fe(CN)_6^{4-}$  charge transfer reaction on Au(111) revisited in the presence and absence of a two-dimensional, condensed organic film*. *J. Electroanal. Chem.*, 2003. **541**: p. 163-174.

(A few papers are in preparation.)

# Acknowledgements

I would like to thank Prof. Dr. Gerhard Ertl for offering me the opportunity to study in his Department of Physical Chemistry at the Fritz-Haber-Institut der MPG in Berlin-Dahlem and for his continuous support.

I would like to thank Prof. Dr. Katharina Krischer who supervised me and gave me multidimensional help in both, research and life. I will be always very happy to recall my stay in her group. I learned a lot and am very grateful. I am also very grateful to Prof. Dr. Helmut Baumgärtel (FU Berlin) for being my second supervisor.

I would like to thank all the members in Katharina's group I ever met: Dr. Julia Oslonovitch, Dr. Nadia Mazouz, Dr. Peter Grauel, Hamilton Varela, Florian Plenge, Dr. Antoine Bonnefont, Dr. Adrian Birzu, and Iljana Mieth. We had many cooperations in the lab, lots of discussions in the group meetings, lots of pleasure time at our birthdays...!

I would like to thank Dr. Rolf Schuster for his help on electronics, Dr. Bruno Pettinger and Dr. Constanze Donner (FU) for helpful scientific discussions, Prof. Dr. Joost Winterlin for general discussions and care.

I would like to thank Heinz Junkes for his tireless support on programming and solving problems with the computer system, and to thank Alfred Martin for preparing gold films (always on time, always good).

I would like to thank Ingeborg Reinhardt for her mother-like help and care.

I would like to thank all the Chinese and international friends I made during my stay at the FHI.

I would like to express my love to all my families.

# Curriculum Vitae

Mr. Yong-Jun Li

Born on Nov. 23, 1972, in Lulong County, Hebei Province, P. R. China

Married, one child

## Education:

1979.9–1985.7 Primary School, in Lulong

1985.9–1991.7 Middle and High School, in Lulong

1991.9–1995.7 Department of Chemistry, Nankai University, Tianjin  
(Bachelor of Science)

1995.9–1998.7 Department of Chemistry, Nankai University, Tianjin  
(Master of Science, Prof. X.-Z. Zhao)

1998.9–1999.2 Half-day German course in Hartnackschule Berlin

1998.9–2003.3 Department of Physical Chemistry,  
Fritz-Haber-Institut der MPG, Berlin  
(For Doctoral degree of the Freie University Berlin,  
Prof. Dr. K. Krischer)
