

TABLE OF CONTENTS

0. TITLE

1. INTRODUCTION

	1
1.1 The Ribosome	1
1.2 Antibiotics acting on the ribosome	5
1.3 X-ray crystallography	6
1.4 Crystallographic studies of the ribosome	8
1.5 <i>Thermus thermophilus</i> organism	9

2. MATERIALS

	10
2.1 Chemicals, Enzymes and kits	10
2.2 Bacterial Strains	11
2.3 Plasmids	11
2.4 Media	11
2.5 Oligodeoxyribonucleotides	11
2.6 Purification columns	12

3. METHODS

	13
3.1 General methods	13
3.2 DNA methods	14
3.3 Ribosome methods	17
3.4 c-DNA methods2	20
3.5 Protein methods	22
3.6 Immunological methods	

	28
3.7 Crystallographic methods	30
4. RESULTS	33
4.1 c-DNA	33
4.2 The Initiation Factor 3	42
4.3 Structure determination	54
5. DISCUSSION	65
5.1 c-DNA	65
5.2 The Initiation Factor 3	66
5.3 Antibiotics	67
6. REFERENCES	71
7. APPENDIX	82
