6.6 Danksagung

Ich bedanke mich für die Themenvergabe sowie insbesondere die engagierte und immer wieder anspornende Betreuung des damaligen Arbeitsgruppenleiters Prof. Dr. Klaus Ley und durch meinen Doktorvater und Institutsleiter Prof. Dr. Axel R. Pries. Mein Dank gilt ebenfalls Mauro Bongrazio für dessen hilfsbereites Korrekturlesen, ebenso den medizinisch-technischen Assistentinnen und der Institutssekretärin Frau Scheuermann sowie allen Arbeitsgruppenmitarbeitern und Mitdoktoranden vom physiologischen Institut für die gute Arbeitsatmosphäre während der Versuchszeit.

Weiterer Dank geht an die Arbeitsgruppe von G.A. Heavner bei Centocor für die freundliche Überlassung der Selektin-Peptide.
