## 7.2 Danksagung

Zwar zuletzt, aber sicherlich nicht an letzter Stelle möchte ich mich bei all denen bedanken, die mir auf unterschiedlichste Weise bei der Anfertigung dieser Arbeit mit Rat und Tat zur Seite standen.

Besonders danken möchte ich ....

... PD Dr. Jörg Hoffmann für die Überlassung des interessanten Themas, für seine Anleitung zum selbstständigen Arbeiten, sowie für seine Unterstützung und Anregungen bei der Durchführung dieser Arbeit

... meinen Kolleginnen Anja Kühl und Katja Grollich, da wir ein nahezu unschlagbares Team waren und weil ich ohne sie oft verzweifelt wäre

... Prof. Oliver Liesenfeld und Daniela Struck, die mir eine sehr große Hilfe bei der Durchführung und histologischen Auswertung der Toxoplasmen-versuche waren

... Dr. Christoph Loddenkämper für die Beurteilung der histologischen Schnitte

... Arvind Batra und Jana Droese für die kritische Durchsicht des Manuskriptes und für ihre konstruktiven Verbesserungsvorschläge

... Dr. Britta Siegmund, die sich immer Zeit genommen hat, mir mit Ratschlägen und Diskussionen ein wenig auf die Sprünge zu helfen

... den Tierpflegern des FEM, insbesondere Sabine Steinbach und Jeanette Wagner für die bereitwillige freundliche Hilfe während meiner Arbeit mit den Mäusen

... allen Kollegen, die immer wieder Blut für mich lassen mussten

... meinen Freunden, dass sie für mich da waren, wenn mal wieder nichts lief, wie es eigentlich sollte, und auch, wenn ausnahmsweise mal alles klappte.

Außerdem möchte ich meiner Mutter und meinem zu früh verstorbenen Vater danken.

Ohne sie wäre ich weder die, die ich bin, noch da, wo ich bin.
