

# **Primary Vitrectomy in the Treatment of Rhegmatogenous Retinal Detachment**

## **HABILITATIONSSCHRIFT**

Zur Erlangung der venia legendi für das Fach

***Augenheilkunde***

Vorgelegt der Medizinischen Fakultät der Charité-Universitätsmedizin

von

Dr. med. Heinrich Heimann

Geboren am 8. Mai 1965 in Marburg / Lahn

Dekan: Prof. Dr. med. Martin Paul

Eingereicht: Im Februar 2005

Gutachter 1:

2:

## 1. Table of content:

1. Table of content:.....	2
2. Abbreviations.....	5
3. Introduction.....	6
4. Rhegmatogenous retinal detachment – variation of preoperative findings .....	8
4.1. Introduction .....	8
4.2. Review of the literature.....	8
4.3. Results of the “Recruitment Study” .....	9
4.3.1. Background.....	9
4.3.2. Results.....	11
4.4. Summary.....	14
5. Current treatment of rhegmatogenous retinal detachment .....	15
5.1. Introduction .....	15
5.2. Review of the literature.....	15
5.3. Disadvantages of scleral buckling surgery.....	16
5.3.1. Anatomical and functional results.....	17
5.3.2. Intra- and postoperative complications .....	18
5.4. Operating methods at the Department of Ophthalmology, CCBF .....	18
5.5. Results of the “Recruitment Study” .....	19
5.6. Summary.....	20
6. Published techniques, results and complications of primary vitrectomy .....	22
6.1. Introduction .....	22
6.2. Methods of literature review .....	22
6.3. Published series of PPPV .....	24
6.4. Technical details of PPPV .....	26
6.5. Results.....	26
6.5.1. Anatomical results.....	26
6.5.2. Reasons for failure .....	27
6.5.3. Functional results .....	27

6.5.4.	Identification of previously unseen breaks .....	28
6.5.5.	Intraoperative complications of PPPV .....	28
6.5.6.	Postoperative complications of PPPV .....	28
6.6.	Summary.....	30
7.	Primary vitrectomy at the Charité, Campus Benjamin Franklin .....	32
7.1.	PPPV at the CCBF 1992-1994 (series 1) .....	32
7.1.1.	Patients and methods .....	32
7.1.2.	Indications and techniques of PPPV .....	33
7.1.3.	Results.....	34
7.2.	PPPV at the CCBF 1994-2004 (series 2) .....	36
7.2.1.	Patients and methods .....	36
7.2.2.	Pre-, intra- and postoperative assessment and outcome measures .....	38
7.2.3.	Statistical analysis.....	39
7.2.4.	Results.....	40
7.3.	Dry eye symptoms following vitreoretinal surgery .....	44
7.4.	Morphological examination of conjunctival specimen .....	45
7.4.1.	Patients and methods .....	45
7.4.2.	Results.....	48
7.5.	Dry eye symptoms following vitreoretinal surgery .....	50
7.5.1.	Patients and methods .....	50
7.6.	Results.....	51
7.7.	Summary.....	53
8.	Design and current status of the SPR study.....	55
8.1.	Introduction .....	55
8.2.	Objectives .....	55
8.3.	Outcome measures .....	55
8.4.	Inclusion and exclusion criteria.....	56
8.5.	Surgical procedures .....	58
8.6.	Statistical aspects .....	59
8.6.1.	Sample size .....	59
8.6.2.	Randomisation and blinding .....	60
8.6.3.	Statistical analysis.....	60
8.7.	Current status (December 2004) .....	60
8.8.	Summary.....	61

9.	Discussion .....	62
9.1.	Advantages, disadvantages and unsolved issues of primary vitrectomy: Assessment of the current literature .....	62
9.1.1.	Advantages of PPPV .....	62
9.1.2.	Presumed advantages of PPPV .....	63
9.1.3.	Disadvantages of PPPV .....	65
9.2.	Results of primary vitrectomy at the Charité, Campus Benjamin Franklin .....	67
10.	Summary .....	73
11.	Acknowledgement .....	77
12.	Literature .....	79
13.	Relevant papers of the applicant .....	88
