

**AN ELECTROCHEMICAL STUDY OF THE  
ADSORPTION AND COADSORPTION BEHAVIOR OF  
SELECTED PURINES, PYRIMIDINES AND  
NUCLEOSIDES ON Au(111)**

von

**M. Sc. Ana Paula Martins Camargo  
aus São Carlos, Brasilien**

**im Fachbereich Biologie, Chemie, Pharmazie  
der Freien Universität Berlin  
eingereichte Dissertation**

**June 2004**

**1. Gutachter: Prof. Dr. H. Baumgärtel**

**2. Gutachterin: Prof. Dr. C. Donner**

**Tag der Disputation: 15.07.2004**

# CONTENTS

Chapter 1: Introduction .....	1
Chapter 2: Background .....	5
2.1 The Double Layer Region .....	6
2.2 Structure of Au Surfaces .....	7
2.3 Adsorption of Organic Molecules on the Electrode Surface .....	10
Chapter 3: Experimental .....	13
3.1 The Electrochemical Cell .....	14
3.2 Electrodes .....	15
3.2.1 Working Electrode (WE) .....	15
3.2.2 Reference Electrode (RE) .....	16
3.2.3 Counter Electrode (CE) .....	17
3.3 Chemicals and Solutions .....	17
3.4 Instrumentation and Techniques .....	17
3.4.1 Potentiostat .....	17
3.4.2 Cyclic Voltammetry .....	18
3.4.3 Chronoamperometry .....	19
3.4.4 Capacity Curve .....	20
Chapter 4: Thymine, Uracil and Adenine .....	21
4.1 Thymine .....	22
4.1.1 Tautomerism and pK Value .....	22
4.1.2 Adsorption of Thymine on Au(111) and Au Polycrystalline .....	23
4.1.2.1 Kinetics on Au(111) .....	29
4.1.2.2 Formation of Thymine Physisorbed and Chemisorbed Phase .....	30
4.1.2.3 Dissolution of the Physisorbed and Chemisorbed Thymine Phase .....	32
4.2 Uracil .....	36
4.2.1 Tautomerism and pK Value .....	36
4.2.2 Adsorption of Uracil on Au(111) .....	36
4.3 Adenine .....	39
4.3.1 Tautomerism and pK Values .....	40
4.3.2 Adsorption of Adenine on Au(111) and on Au Polycrystalline .....	42
4.4 Coadsorption of Thymine and Adenine on Au(111) and on Au polycrystalline .....	49
4.4.1 Discussions .....	62

4.5 Coadsorption of Thymine and Uracil on Au(111) .....	67
4.6 Summary .....	73
Chapter 5: Bromouracil, Adenine and Guanine .....	75
5.1 Bromouracil .....	76
5.1.1 General Aspects.....	76
5.1.2 Tautomerism and pK Value .....	77
5.1.3 Adsorption of Bromouracil on Au(111).....	78
5.2 Guanine .....	83
5.2.1 General Aspects.....	83
5.2.2 Tautomerism and pK Value .....	84
5.2.3 Adsorption of Guanine on Au(111).....	85
5.3 Coadsorption of Bromouracil, Adenine and Guanine on Au(111) .....	91
5.3.1 Coadsorption of Bromouracil and Adenine.....	92
5.3.2 Coadsorption of Bromouracil and Guanine.....	95
5.4 Coadsorption of Thymine and Guanine on Au(111) .....	98
5.5 Summary .....	102
Chapter 6: Adenosine and Thymidine .....	103
6.1 Adenosine.....	105
6.1.1 Adsorption of Adenosine on Au(111).....	105
6.3 Coadsorption between Adenosine and Thymine on Au(111).....	108
6.4 Thymidine .....	110
6.4.1 Adsorption of Thymidine on Au(111).....	110
6.5 Coadsorption between Thymidine and Adenosine on Au(111).....	114
6.6 Summary .....	116
Chapter 7: Summary .....	117
References.....	121
