I would like to thank...

...Prof. Dr. H. Baumgärtel for giving me the opportunity to work at his group in Freie Universität Berlin and his multidimensional help during my staying here.

...Dr. C. Donner for all discussions, friendship, encouragement and help during these years, mainly in the final period of this work.

...Prof. Dr. F. Nart for adviser me in the first steps of my career and friendship, Prof. Dr. F. Cunha, Prof. Dr. T. Iwasita, Prof. Dr. W. Vielstich and Prof. Dr. K. Krischer for the helpful discussions and friendship.

...Ms. L. Brodricks for helping me in several aspects during my staying at Freie Universität and Mr. E. Biller for the technical support.

...My colleagues from FU Berlin: A. S. Gemechu, S. Marquardt, L. Hoffmann, Dr. H-A. Carime, S. Gohlke, E. Avci, E. Fayyad, C. Meyer, Dr. Y. Yang, and Dr. S. Kirste for fruitful discussions and general help.

...My friends Marcia Giacominni, Sérgio Kuriyama, Cristina de Souza, Alexei Pinheiro, Eline and Peter Janke, Ana Paula Silveira, and Anelise Regianni for the emotional support that helped me during these three and a half years so far away from home.

...Daniel Silvatti for the unconditional friendship and help and for taking care of all my family.

...My brother Breno Camargo for staying beside my parents giving me peace and encouragement to work here during these years.

... Specially my husband Hamilton Varela for the friendship, patience, guidance and all love that only increased with the distance and the most difficult times and for the invaluable help and encouragement to finish this work.

This work is dedicated to my parents Elisabeth Martins Camargo and Odair de Moura Camargo for the continuous support and unconditional love, crucial to bring me here and to my coming son.
