Today's topic: Sex

1. Don't do it.
2. See number one.

Is this sex education? Get real.

Experts agree that young people need comprehensive information about sexuality and reproductive health in order to make healthy and responsible decisions. And while abstinence is widely regarded as the healthiest choice for adolescents, the reality is that by the time they graduate from high school, over half of all teenagers have had sexual intercourse.

This is a good time to check out what is being taught in the sexuality education in your schools. Find out if it addresses a range of issues in an age-appropriate way, including such topics as reproductive health, personal skills and boundary setting, contraception and healthy relationships.

While you're at it, make sure the subject matter is even correct. New California legislation requires that public schools that teach sexuality education must provide information that is medically accurate and up-to-date, as well as being free of race and gender bias.

Support efforts to make sure that sexuality education gives young people the *complete* information they need to make healthy decisions.

The "Get Real About Teen Pregnancy" public education campaign is funded by a grant to Deen + Black from The California Wellness Foundation. To learn more, visit our website at: www.letsgetreal.org

McAlister High School

THE PLACE TO BE YOURSELF

20 REASONS TO ATTEND MCALISTER HIGH

- (1) McAlister High School is a free Los Angeles public school. All pregnant teens are invited to enroll.
- (2) If you are 18 or younger, we will supply you with the classes you need. Middle school students too!
- (3) It is a friendly nurturing environment for all teen mothers.
- (4) Make friends with other pregnant teens and share your experiences together. You are never alone at McAlister.
- (5) The school provides special parenting classes for a better pregnancy, birth, and infant care.
- (6) You attend classes until 12:30 p.m. If you do the minimum required points per week, you will not fall behind in your studies. In fact, if you do more than the minimum requirements, you can progress faster towards graduation than a traditional school.

Enroll at McAlister for a brighter future.

You probably did not want to be a mother until you were in your 20s. Right? But real life does not have a rewind button. Now it's your responsibility to learn to be a good mother, get a good education, prepare for a good job, and raise your child properly.

Join us at McAlister High where thousands of pregnant teens have continued their junior and senior high education. They have turned their lives into success stories. So can you!

Study parenting and childbirth.
