

AN ELECTROCHEMICAL STUDY
OF THE DEPOSITION OF COPPER AND SILVER ON
THYMINE MODIFIED AU(111)

Inaugural-Dissertation
to obtain the academic degree
Doctor rerum naturalium (Dr. rer. nat.)
submitted to the Department of Biology, Chemistry and Pharmacy
of Freie Universität Berlin

by

M.Sc. Ercan Avci
from Antalya, Turkey

June, 2007

1st Reviewer: Priv. Doz. Dr. Constanze Donner

2nd Reviewer: Prof. Dr. Eckart Rühl

date of defence: 24 October 2007

...to my family

TABLE OF CONTENTS

Chapter 1: Introduction.....	1
1.1 The aim of the study	5
Chapter 2: Background	
2.1 Single crystals: Structure of Au surfaces.....	6
2.2 Structure of Electrified Interfaces	7
2.2.1 The double layer region	7
2.2.2 Potential of Zero Charge (PZC).....	10
2.2.3. Surface reconstruction	11
2.3 Adsorption of organic molecules on the electrode surface	12
2.4 Metal Underpotential Deposition (Me UPD)	13
2.4.1 Theoretical considerations for UPD	15
2.4.1.a Underpotential shift	17
2.4.1.b Work function.....	17
2.5 The kinetics of the formation of a monolayer	18
2.5.1 Nucleation and growth mechanism & Avrami analysis	18
2.5.2 Disolution kinetics interpreted by the Predator-Prey model.....	24
Chapter 3: Experimental	
3.1 Basic concepts of the experimental techniques	
3.1.1 Capacitive process	28
3.1.2 Faradaic process.....	29
3.2 Experimental methods & theoretical backgrounds	
3.2.1 Cyclic Voltammetry (CV)	29
3.2.2 Chronoamperometry	30
3.2.3 AC Voltammetry	32
3.2.4 Electrochemical Scanning Tunnelling Microscopy (EC-STM)	33
3.2.5 X-ray Photoelectron Spectroscopy (XPS)	34
3.3 Instrumentation & experimental setup	
3.3.1 Potentiostat	36

3.3.2 The Electrochemical cell	36
3.3.3 Electrodes	
3.3.3.a Working Electrode (WE)	37
3.3.3.b Reference Electrode (RE)	39
3.3.3.c Counter Electrode (CE).....	40
3.3.4 XPS Investigations.....	40
3.3.4.a Transfer procedure	40
3.3.5 EC-STM measurements.....	41
3.4 Chemicals and solutions	41

Chapter 4: Adsorption of Thymine / Adenine on Au(111) Electrode

4.1 Thymine.....	43
4.1.1 Chemical properties of thymine.....	43
4.1.2 Adsorption of thymine on Au(111)	44
4.1.2.a Concentration dependence	47
4.1.2.b Acidity dependence	48
4.2 Adenine.....	50
4.2.1 Chemical properties of adenine	51
4.3.2 Adsorption of adenine on Au(111)	52
4.3.2.a Acidity dependence.....	54
4.3.3 Comparison of adenine system with thymine.....	55

Chapter 5: UPD of copper on Au(111)

5.1 Influence of anions	58
5.2 In sulfuric acid media	60
5.2.1 Chronocoulometric study.....	62
5.2.1.a Set-I.....	62
5.2.1.b Set-II	64
5.3 In perchloric acid media	66
5.3.1 Acidity dependence	68
5.3.2 Chronocoulometric study.....	70
5.3.2.a Waiting at the formation potential A (-0.31 V) & Avrami study.....	71

5.3.2.b Waiting at the formation potential B (-0.44 V) & Avrami study.....	75
5.3.3 Bulk deposition.....	78
5.3.4 <i>Ex situ</i> XPS Studies	79
5.4 Summary.....	84
Chapter 6: Cu UPD on thymine / adenine modified Au(111)	
6.1 Cu Deposition on thymine modified Au(111).....	86
6.1.1 Chronocoulometric study.....	89
6.1.1.a Formation process.....	90
6.1.1.b Dissolution process and Avrami analysis	90
6.1.2 STM study	93
6.1.3 XPS study	94
6.1.4 The mechanism of the supporting effect of thymine	98
6.2 Adsorption behaviour of copper and thymine on Cu(111) electrode.....	101
6.2.1 Deposition of copper on Cu(111): influence of anions	102
6.2.2 Influence of thymine on the potential window of Cu(111) electrode .	103
6.2.3 Copper deposition on Cu(111) electrode in the presence of thymine	103
6.2.4 Possibility of copper-thymine complex	104
6.2.5 Summary	105
6.3 Cu UPD on adenine modified Au(111).....	106
6.3.1 Chronocoulometric Study & Avrami study.....	108
6.3.2 Comparison of cyclic voltammograms adenine and thymine.....	111
6.3.3 Summary.....	112
Chapter 7: Ag UPD on thymine modified Au(111)	
7.1 Silver deposition on Au(111) electrode.....	114
7.1.1 Chronocoulometric study.....	117
7.1.1.a Dissolution transients-I	117
7.1.1.b Dissolution transients-II.....	120
7.1.2 Influence of waiting or cycling within the UPD region	121
7.1.3 XPS studies.....	122
7.1.3.a Determination of work function.....	124

7.1.4 Structures of Ag adlayers.....	125
7.2 Silver deposition on thymine modified Au(111) electrode	126
7.2.1 Chronocoulometric study.....	127
7.2.2 Influence of cycling within the UPD region.....	130
7.2.3 XPS studies	130
7.2.4 Structures of Ag ML and bulk layer incorporated with thymine.....	135
7.2.5 STM imaging of Ag growth on Au(111).....	136
7.2.5.a In the absence of thymine	136
7.2.5.b In the presence of thymine.....	138
7.3 The mechanism of silver deposition on thymine modified Au(111) electrode...	139
7.4 Summary.....	140
Chapter 8: Sequential UPD of Cu and Ag on Au(111)	141
8.1 In the absence of thymine in Ag ⁺ cell (<i>section 1</i>)	143
8.1.1 Electrochemical results for Section 1a	143
8.1.2 Influence of waiting in the UPD region.....	144
8.1.3 Stability of Ag layer on Au(111) in Cu ²⁺ electrolyte	145
8.1.4 Chronocoulometric studies	146
8.1.5 Influence of thymine in the Cu ²⁺ cell	147
8.2 In the presence of thymine in Ag ⁺ cell (<i>section 2</i>)	147
8.2.1 Adjusting at -0.085 V	148
8.2.2 Adjusting at 0.190 V.....	149
8.3 Summary of all chronocoulometric studies.....	149
8.4 XPS studies.....	150
8.5 Summary.....	153
Summary	155
Zusammenfassung.....	158
Bibliography
