

Contents

1. Introduction	6
2. Literature Overview	7
2.1 Endosseous dental implants	7
2.2 Features of single tooth implant	7
2.2.1 Alveolar bone atrophy	8
2.2.2 Esthetic requirement	9
2.3 Missing single tooth: Treatment options	10
2.3.1 Conventional bridgework	10
2.3.2 Adhesive bridgework	10
2.3.3 Removable partial denture	11
2.3.4 Orthodontic space closure	12
2.3.5 Autogenous tooth transplantation	12
2.3.6 Single tooth implant crown	12
2.4 Endosseous dental Prowital® implant system	13
2.4.1 Implant macro design	13
2.4.2 Implant surface (Micro design)	14
2.5 Loading conditions	14
2.6 Success criteria of implants	15
2.7 Bone quality	15
2.8 Peri-implant soft tissue	16
2.9 Clinical studies about acid-etched implants	17
2.10 Acid-etched implants and short healing period	18

2.11 Clinical studies about single tooth implants	18
3. Purpose	21
4. Materials and Methods	22
4.1. Ethics committee approval	22
4.2. Patient selection and implants	22
4.2.1. Inclusion criteria	23
4.2.2. Exclusion criteria	23
4.3. Details about the Prowital® implant	24
4.4. Surgical procedure	24
4.5. Success criteria	25
4.6. Prosthetic procedure	25
4.7. Clinical evaluation	26
4.7.1. Inspection criteria	26
4.7.2. Bone quality	27
4.8. Radiological examination	27
4.8.1. X-ray method	27
4.8.2. Evaluation of the radiological image	27
4.9. Statistical analysis	29
5. Results	30
5.1. Patients	30
5.2. Drop out and implant success	30
5.3. Implant localization and gender	30
5.4. The implant dimensions	31

5.5. Hard tissue parameters	32
5.5.1. Bone quality	32
5.5.2. Radiological parameters	33
5.5.2.1. Bone level at implant placement	33
5.5.2.2. Bone level at six months	33
5.5.2.3. Bone level after one year	33
5.5.2.4. Mesial and distal crestal bone loss	34
5.5.3. The vertical bone level above the implant shoulder.	35
5.6. Soft tissue parameters	35
5.6.1. Pocket depth	35
5.6.2. Plaque index	36
5.6.3. Bleeding index	36
5.7. Statistical Analysis of factors influencing the bone resorption	38
5.8. Statistical Comparison	43
6. Discussion	44
7. Summary	54
7. Zusammenfassung	55
8. References	56
