

## 8 Literaturverzeichnis

Abbott D. H., Dumesic D. A., Franks S. (2002)

Developmental origin of polycystic ovary syndrome, a hypothesis.

J. Endocrinol. **174**: 1-5

Abel M. H., Wootton A. N., Wilkins V., Huhtaniemi I., Knight P. G., Charlton H. M. (2000)

The effect of a null mutation in the follicle-stimulating hormone receptor gene on mouse reproduction.

Endocrinology **141**: 1795-1803

Abulafia O., Sherer D. M. (2000)

Angiogenesis of the ovary.

Am. J. Obstet. Gynecol. **182**: 240-246

Acosta T. J., Miyamoto A., Ozawa T., Wijayagunawardane M. P. B., Sato K. (1998)

Local release of steroid hormones, prostaglandin E<sub>2</sub>, and endothelin-1 from bovine mature follicles in vitro: Effects of luteinizing hormone, endothelin-1 and cytokines.

Biol. Reprod. **59**: 437-443

Acosta T. J., Yoshizawa N., Ohtani M., Miyamoto A. (2002)

Local changes in blood flow within the early and midcycle corpus luteum after Prostaglandin 2 alpha injection in the cow.

Biol. Reprod. **66**: 651-658

Adams J. M., Cory S. (1998)

The Bcl-2 protein-family: arbiters of cell survival.

Sci. **281**: 1322-1326

Albert C., Garrido N., Rao C. V., Remohi J., Simon C., Pellicer A. (2002)

The role of endothelium in the pathogenesis of ovarian hyperstimulation syndrome.

Mol. Hum. Reprod. **8**: 409-418

- Allen R. T., Hunter W. J., Agrawal D. K. (1997)  
Morphological and biochemical characterization and analysis of apoptosis.  
*J. Pharmacol. Toxicol. Methods* **37**: 215-228
- Al-zi`abi M. O., Fraser H. M., Watson E. D. (2002)  
Cell death during natural and induced luteal regression in mares.  
*Reproduction* **123**: 67-77
- Armstrong J. S. (2006)  
Mitochondrial membrane permeabilization: the sine qua non for cell death.  
*Bioessays* **28**: 253-60
- Arosh J. A., Banu S. K., Chapdelaine P., Madore E., Sirois J., Fortier M. A. (2004)  
Prostaglandin biosynthesis, transport, and signaling in corpus luteum: a basis for  
autoregulation of luteal function.  
*Endocrinology* **145**: 2551-2560
- Augustin H. G. (2000)  
Vascular morphogenesis in the ovary.  
*Clin. Obstet. Gynaecol.* **14**: 867-882
- Aust G., Brylla E., Lehmann I., Kiessling S., Spanel-Borowski K. (1999)  
Cloning of bovine RANTES mRNA and its expression and regulation in ovaries in the  
perioovulatory period.  
*FEBS Lett.* **463**: 160-164
- Bahramsoltani M. (2003)  
Quantifizierung der Angiogenese und Anti-Angiogenese in vitro.  
Dissertation. Tierärztliche Fakultät der Freien Universität Berlin.
- Barker R. N., Erwig L. P., Pearce W. P., Devine A., Rees A. J. (1999)  
Differential effects of necrotic or apoptotic cell uptake on antigen presentation by  
macrophages.  
*Pathobiology* **67**: 302-305

Bates D. O., Harper S. J. (2002)

Regulation of vascular permeability by vascular endothelial growth factors.

Vasc. Pharmacol. **39**: 225-37

Bauer M., Schilling N., Spanel-Borowski K. (2003)

Development and regression of non-capillary vessels in the bovine corpus luteum.

Cell. Tis. Res. **311**: 199-205

Bellin R., Capila I., Linecum J., Park P. W., Reizes O., Bernfield M. R. (2002)

Unlocking the secrets of syndecans: transgenic organisms as a potential key.

Glycoconj. J. **19**: 295-304

Benjamin L. E., Hemo I., Keshet E. (1998)

A plasticity window for blood vessel remodelling is defined by pericyte coverage of the preformed endothelial network and is regulated by PDGF-B and VEGF.

Development **125**: 1591-1598

Berisha B., Schams D., Kosman M., Amselgruber W., Einspanier R. (2000)

Expression and tissue concentration of vascular endothelial growth factor, its receptors, and localization in the bovine corpus luteum during estrous cycle and pregnancy.

Biol. Reprod. **63**: 1106-1114

Berisha B., Sinowatz F., Schams D. (2004)

Expression and localization of fibroblast growth factor (FGF) family members during the final growth of bovine ovarian follicles.

Mol. Reprod. Dev. **67**: 162-171

Bikfalvi A. (2004)

Platelet factor 4: an inhibitor of angiogenesis.

Semin. Thromb. Hemost. **30**: 379-85

Bikfalvi A., Gimenez-Gallego G. (2004)

The control of angiogenesis and tumor invasion by platelet factor-4 and platelet factor-4 derived molecules.

Semin. Thromb. Hemost. **30**: 137-44

Bloomston M., Shafii A., Zervos E. E., Rosemurgy A. S. (2002)

TIMP-1 overexpression in pancreatic cancer attenuates tumor growth, decreases implantation and metastasis and inhibits angiogenesis.

J. Surg. Res. **102**: 39-44

Boenisch T. (1989)

Handbuch II immunhistochemischer Färbemethoden.

4. überarbeitete Auflage, Dako Corporation, Hamburg

Boiti C., Guelfi G., Brecchia G., Dall'Aglio C., Ceccarelli P., Maranesi M., Mariottini C., Zampini D., Gobbetti A., Zerani M. (2005)

Role of Endothelin-1 system in the luteolytic process of pseudopregnant rabbits.

Endocrinology **146**: 1293-1300

Boone D. L., Yan W., Tsang B. K. (1995)

Identification of a desoxyribose-nuclease-like endonuclease in rat granulosa and luteal cell nuclei.

Biol. Reprod. **53**: 1057-1065

Boonyaparakob U., Gadsby J. E., Hedgpeth V., Routh P., Almond G. W. (2003)

Expression and localization of vascular endothelial growth factor and its receptors in pig corpora lutea during the oestrous cycle.

Reproduction **126**: 393-405

Bornstein P., Armstrong L. C., Hankenson K. D., Kyriakides T., Yang Z. (2000)

Thrombospondin-2, a matricellular protein with diverse functions.

Matrix Biol. **19**: 557-568
